

JAHNAVI VANKAYALAPATI

Katy, Texas • jahnaviv94@gmail.com • +1 615 491 3515 • [LinkedIn](#) • [GitHub](#)

Experience

Software Engineer | SBS Corp, Texas

May 2025 – Present

- Built Java 8 Spring Boot microservices with Hibernate/JPA & Spring Cloud (Eureka, Zuul, Config), improving API performance by 25%.
- Designed REST/SOAP APIs and integrated Drools/JBPM rules engine, reducing workflow processing time by 20%.
- Deployed services on Docker/Kubernetes (GCP) using Jenkins CI/CD, with monitoring via Prometheus/Grafana.
- Achieved 85%-unit test coverage with JUnit, Mockito, and RestAssured; enforced standards with SonarQube.

Graduate Assistant (Software Developer Assistant) | MTSU, TN

Dec 2023 – May 2025

- Automated financial reports using SQL/Argos/Banner, & Python for streamlining workflows & enabling real-time insights.

Associate Software Engineer (Java Developer) | Accenture, India

Jan 2023 – Aug 2023

- Built Spring Boot microservices with RESTful APIs, reducing freight forwarding errors by 15% & enabling tracking.
- Tuned JPQL/native SQL queries and optimized indexing, resulting in 20% faster CRUD operations across the application.
- Enhanced code quality with JUnit, Mockito, & analysis tools, reducing PMD violations by 40% & eliminating critical smells.
- Resolved over 90% of security vulnerabilities using CodeQL scans, log sanitization, and secure development practices.
- Led CI/CD pipelines using Jenkins & GitHub, increasing deployment success rates by 30% & minimizing release defects.

Java Full Stack Intern | Wipro, India

Jun 2022 – Dec 2022

- Developed a full-stack online platform ("Shop for Home") with Angular 8 frontend, Spring Boot + Hibernate backend.
- Deployed on AWS (EC2, RDS, S3) for scalable & secure cloud operations, streamlining workflows & automating deployments for stability.
- Streamlined workflows & automated deployments using VS Code, STS4, & Tomcat, delivering a stable e-commerce platform.

Junior Java Developer | iSOFT Software PVT Ltd, India

Jul 2021– Jun 2022

- Developed enterprise apps in Java 11, Spring Boot, React, leveraging Streams & Lambdas to reduce null-pointer risks.
- Built and secured SOAP/REST APIs, implementing authentication via OAuth2, JWT, & Basic Auth, & documented with Swagger/Postman.
- Integrated Kafka/ActiveMQ for messaging and deployed Spring Boot apps on AWS EC2 with auto-scaling.
- Automated CI/CD pipelines with Jenkins and Git, validated APIs using JUnit5, Selenium, and Postman.

Projects

Bill.ai| [Link](#)

- Deployed a web app using Google's T5-Small for automated summarization of U.S. Congressional bills with React.js frontend.
- Developed Python backend (Flask-SocketIO) with multiprocessing to serve thousands of users, improving performance by 43%.
- Implemented on GCP with Docker, Compute Engine & Kubernetes for scalable, cost-efficient hosting & high availability.

Nimbus| [Link](#)

- Built a responsive React.js single-page application hosted on AWS (S3 + CloudFront) with secure user authentication via Cognito.
- Designed a modular architecture with Python backends, API Gateways and DynamoDB data models to support scalable, high-throughput workflows.
- Integrated AWS Bedrock for real-time AI assistance, enabling context-aware content generation and enhancing application usability.

Education

M.S in Computer Science | Middle Tennessee State University, USA | GPA 3.75/4

B.S in Computer Science and Engineering | Jawaharlal Nehru Technological University, Kakinada, India

Skills & Certifications

- **Languages & Frameworks:** Java 8/11, Python, JavaScript, TypeScript, C#, .NET Framework, Spring Boot, Hibernate/JPA, Node.js
- **Frontend:** React.js, Angular, HTML5, CSS3, Bootstrap, Tailwind CSS, Material-UI
- **Cloud/DevOps:** AWS (EC2, S3, RDS, Cognito, Bedrock, Lambda), GCP, Azure, Docker, Kubernetes, Jenkins, Git/GitHub, CI/CD, Maven
- **Databases:** MySQL, PostgreSQL, MongoDB, DynamoDB, Redis, SQL (queries, stored procedures)
- **Messaging & Monitoring:** Kafka, ActiveMQ, JMS, Prometheus, Grafana
- **Testing & Documentation:** JUnit, Mockito, Selenium, RestAssured, Postman, Swagger, Jest, NUnit
- **Productivity Tools:** MS Office (Word, Excel, Outlook, PowerPoint), HRIS systems
- **Methodologies:** Agile/Scrum, RESTful API design, version control (Git), containerization (Docker, Kubernetes)
- **Soft Skills:** Strong problem-solving, organizational and multitasking abilities, technical communication, and collaboration
- **Certifications:** AI for Everyone: Master the Basics (2025), AWS Certified AI Practitioner (2025), StackRoute JAVA for Cloud (2022)

Academic & Community Contributions

- Guest Speaker (AI), Central Magnet School: Delivered session on AI concepts like A* pathfinding to high school students.
- Volunteer (Nashville Tech Council): Supported 2024 Innovation Summit and networked with industry leaders in AI & Data.
- Taught Python in MTSU's LEGO Robotics program, providing technical support, and promoting hands-on STEM learning for women.
