janki.dev2120@gmail.com

- Experienced Java Developer with over 3+ years of hands-on expertise in designing, developing, and deploying Java-based applications.
- Working knowledge of multiple software development methodologies like Agile/Scrum and Waterfall.
- Well-Versed in Java/J2EE technologies like JDBC, JavaBeans, JSON, Restful, Servlets, Spring Boot, Hibernate, Spring MVC, and JSF.
- Ability to Presentation layer using HTML, CSS, JavaScript, jQuery, Bootstrap, JSON, XML, and Ajax technologies.
- Proficiency in relational database management systems RDBMS including MySQL, SQL Server, and Oracle.
- Good understanding of using build tools including ANT, Maven, and Gradle for building and deploying applications on the servers.
- Proficient in using Git version control for collaborative software development and code management.
- Proven ability to optimize Jenkins configurations for speed and reliability, ensuring streamlined software development and release.

Work Experience

Java Developer

07/2022 to Present

UnitedHealth Group

Tennessee, United States

- Gained valuable experience in agile software development methodologies.
- Assisted in the implementation of RESTful APIs and database queries to support application functionality.
- Developed microservices architecture using Spring Boot and Spring MVC, creating scalable and modular components for improved system performance.
- Utilized Maven and Gradle build tools to manage project dependencies and streamline the build process, improving development efficiency.
- Integrated Java applications with various databases, including Oracle, and SQL Server, to support data storage and retrieval requirements.
- Leveraged JIRA for project management and documentation, facilitating effective communication and collaboration within the development team.
- Effectively used Git for version control, managing code branches and collaborating with team members on code repositories.
- Conducted load testing and performance tuning using tools like Apache JMeter, identifying and resolving bottlenecks.
- Automated build and deployment pipelines using Jenkins reducing manual

- deployment efforts by 50%.

Java Developer

05/2020 to 06/2022

Western Digital

California, United States

- Utilized Software Development Life Cycle (SDLC) like Waterfall to configure and develop processes and standard procedures.
- Worked on Java Maven project with Hibernate framework for developing new features and modification requests.
- Designed and maintained relational databases (MySQL, SQL Server) and optimized database queries for improved performance.
- Implemented Spring Security for authentication and authorization, ensuring secure user access to applications.
- Collaborated with the QA team to implement and automate test cases using Selenium and JUnit, reducing manual testing efforts by 30%.
- Employed JUnit and TestNG frameworks for unit testing and automated test suites, ensuring robust code quality and preventing regressions.
- Developed and maintained APIs for mobile applications, optimizing response times and enhancing user experiences.
- Developed the different components of applications such as JSPs, and Servlets, using Web sphere.
- pipeline.
- Implemented version control strategies using Git, including branching and merging, to facilitate collaborative development.

Skills

Methodology: SDLC, Agile, Waterfall

Languages: Core Java, Java8, SQL

Frameworks: Spring MVC, Spring Boot, Spring Security, Microservices, JSF, Hibernate, JPA

IDEs: NetBeans, IntelliJ IDEA, QC, TFS, Eclipse, Selenium.

J2EE Technologies: Servlets, JSP, JSTL, JavaBeans, JDBC

Web Technologies: HTML, CSS, JavaScript, Bootstrap, jQuery, Ajax, JSON, XML

Application Server: Apache Tomcat, Web Sphere

Databases: MySQL, PostgreSQL, NoSQL

Build /Other tools: UML, MS Visio, ANT, Maven, Gradle, Junit, ALM, JIRA, TFS, Snagit, JAMA, Serena, ServiceNow, TN3270, UltraEdit, FileZilla, TOAD, Jenkins, JMeter

Version Control Tools: Git, GitHub

Operating Systems: Windows, Linux

Education

ITT Technical Institute

Associate

Software Development

08/2016 to 05/2017
