## Professional Summary

---

Performance-driven Business Analyst with proven success in delivering measurable process improvements, cost savings, and compliance readiness across healthcare and cloud migration projects. Recognized for reducing Medicare/Medicaid claim mismatches by 70%, cutting manual reporting time by 15+ hours weekly, and driving a 25% improvement in decision-making speed. Expert in transforming complex requirements into actionable solutions through advanced SQL, Python, and BI tools such as Tableau and Power BI. Skilled at leading cross-functional collaboration, mapping workflows to eliminate bottlenecks, and ensuring full regulatory compliance under CMS and Agile/Scrum frameworks.

## Skills

---

**Business Analysis:** Requirements gathering, BRD/FRD/SRS documentation, workflow mapping, process improvement

**Data Analysis & Reporting:** SQL, Python (Pandas, NumPy), regression analysis, A/B testing, Jupyter Notebooks

**Business Intelligence & Visualization:** Tableau, Power BI, KPI dashboard creation, data storytelling

**Cloud & Data Platforms:** AWS Redshift, S3, CloudWatch, Snowflake

**Project Management:** Agile/Scrum methodology, JIRA, Confluence, backlog management

**Compliance & Audit:** CMS compliance validation, audit preparation, regulatory adherence

**Communication & Stakeholder Management:** Cross-functional collaboration, workshop facilitation, client presentations

## Professional Experience

---

### Business Analyst

September 2024 – Present

#### Blanchard Valley Hospital

- Reduced rework by 35% by facilitating stakeholder workshops and SME interviews to gather requirements, producing complete BRDs and FRDs aligned to scope and business objectives.
- Reduced Medicare/Medicaid claim mismatches by 70% by writing advanced SQL queries to detect a 12% error rate in claim submissions and partnering with developers to implement corrective logic.
- Improved claims resolution time by 20% by performing regression analysis in Python (Pandas, NumPy) within Jupyter Notebooks to identify key drivers of payment delays.
- Cut manual reporting time by 15 hours/week by creating automated dashboards in Tableau connected to Snowflake, improving KPI accuracy to 99.5% and supporting timely decision-making.
- Accelerated decision-making by 25% by integrating AWS Redshift and S3 for automated historical claims retrieval and enabling on-demand A/B testing of billing process changes.
- Improved operational throughput by mapping as-is and to-be workflows in Microsoft Visio, pinpointing five process bottlenecks and recommending targeted changes to reduce billing delays.
- Ensured full CMS compliance by overseeing validation and audit preparation in JIRA under Agile/Scrum methodology, delivering all SRS-defined features ahead of schedule.

### Business Analyst

November 2020 – July 2023

#### Simform, Ahmedabad, India

- Facilitated requirement gathering workshops with business and technical teams, documenting user stories and maintaining a prioritized product backlog in JIRA to steer AWS cloud migration deliverables.
- Drafted and reviewed Statements of Work (SOWs), contracts, and proposals, ensuring AWS-based solutions met agreed scalability, security, and cost objectives.
- Performed 55+ architecture reviews, using AWS CloudWatch to track performance and cost metrics, and recommended optimizations that improved system reliability by 30% and reduced infrastructure spend by 25% annually.
- Designed and developed Power BI dashboards to visualize migration KPIs, cost savings, and performance improvements, enabling stakeholders to track progress in real time and make informed adjustments.
- Worked with development teams to design and refine workflows, integrating AWS S3 for migration staging, SQL for data checks, and Python scripts to automate compliance validations, reducing manual review time by 40%.
- Leveraged AWS Redshift to query and analyze migration datasets, improving the accuracy of post-migration reports by 35% and accelerating decision-making timelines.
- Maintained complete project documentation, supported audit readiness, and coordinated compliance reviews, ensuring successful client approvals and regulatory adherence.
- Delivered migration presentations, conducted client Q&A sessions, and provided detailed handover packages, contributing to a 100% satisfaction score in post-implementation feedback.

## Education

---

### Master of Business Administration in Business Analytics

August 2023 – May 2025

Tiffin University, Tiffin, Ohio

### Bachelor of Science

July 2017 – September 2020

IJ University, Ahmedabad, India
