Profile

Data Analyst with 4+ years of experience in ETL development, database optimization, and data visualization. Demonstrated expertise in SQL, Python, Tableau, and Power BI to transform complex datasets into actionable insights, improving decision-making by 30%. Skilled in end-to-end data pipeline development using AWS (S3, Glue) and Azure, with experience reducing warehouse costs by 25% and improving workflow efficiency by 25%. Adept in regression and time series analysis, KPI tracking, and Agile/Scrum project collaboration with Jira and CRM systems to deliver measurable business outcomes.

Skills

Programming Languages

Python, R, Java

Visualization & Reporting Tools

Tableau, Power BI, Excel
(Advanced: Pivot, Power Query)

Methodologies

Agile/Scrum, SDLC, Waterfall

Databases

SQL Server, MySQL, PostgreSQL,
Oracle

Data Analysis & Methods

ETL Development, Data
Warehousing, Cost/Benefit, GAP,
Risk, Impact, SWOT, Business
Impact, Regression, Time Series,
Decision-Making

Cloud Platforms

AWS (S3, Glue), Azure

Collaboration Tools

Jira, SharePoint, CRM, SAP ERP,
KPIs

Professional Experience

Data Analyst, IT Pros

01/2025 – Present

- Developed and maintained ETL pipelines in Python and SQL for structured/unstructured data.
- Managed and optimized SQL Server & MySQL databases, improving performance and ensuring integrity.
- Built interactive Tableau & Power BI dashboards, improving decision-making by 30%.
- Leveraged AWS S3 & Glue for scalable object storage and ETL integration.
- Performed advanced analyses (regression, time series) to support strategic planning.
- Led annual CRM database clean-up, improving data quality and governance.

Data Analyst, Smartfox

01/2021 – 10/2023

- Automated data ingestion & transformation with Python/SQL pipelines, improving efficiency by 25%.
- Created Tableau dashboards to track sales trends and customer behavior.
- Analyzed datasets from multiple sources, uncovering insights to guide decisions.
- Collaborated in Agile/Scrum teams, managing deliverables with Jira.
- Optimized SQL queries, reducing warehouse costs by 25%.
- Produced reports with Excel, SSRS, and SSAS, improving analysis and reporting workflows.

Education

Masters in Information Technology, Atlantis University

07/2025

Projects

Sales Forecasting (Python + SQL)

- Forecasted daily, weekly, and monthly sales trends using SQL + Python, identifying high-demand products.
- Delivered time-based insights with Matplotlib & Seaborn to improve planning and inventory management.

Online Sales Data Visualization (Tableau)

- Built interactive dashboards with symbol maps, heatmaps, and text tables to reveal sales patterns.
- Provided actionable product, region, and time-based insights to support business decisions.

Certificates

Data Analysis Using Power BI

Datacense (Sep 2025)
