

Niharika Buyyani

Business Analyst

Location: USA | Email: bniharika649@gmail.com | Phone: (475) 308-8622 | [LinkedIn](#)

SUMMARY

- Business Analyst with 4 years of experience in process optimization, data analysis, and project management across supply chain, automotive, and IT sectors.
- Proficient in using Power BI and Tableau to create real-time dashboards, and SQL with SAP Materials Management to optimize supply chain workflows, reducing lead times by 15% and improving resource allocation by 10%.
- Experienced in requirement gathering, process modeling (BPMN), and workflow design, delivering comprehensive BRDs and FRDs to align business goals with technical solutions.
- Implemented Lean Six Sigma and DMAIC principles, achieving operational efficiency improvements and reducing lead times.
- Expertise in Agile methodologies (Scrum, Kanban) with a proven track record of improving project delivery timelines by 25% and boosting team productivity by 15%.
- Adept at integrating advanced technologies, including AWS Redshift, Python, and cloud platforms, to develop scalable, data-driven solutions.
- Strong communicator with excellent stakeholder management and cross-functional teamwork, facilitating Agile ceremonies to drive project success.
- Passionate about leveraging data and technology to solve complex business challenges and drive strategic goals.

TECHNICAL SKILLS

- **Business Analysis & Process Documentation:** Requirement Gathering, BRD, FRD, Use Case Development, Process Modeling (BPMN), Workflow Design, Agile Ceremonies, Scrum, Kanban, Stakeholder Management
- **Data Analysis & Visualization:** Power BI, Tableau, Advanced Excel (Pivot Tables, VLOOKUP, Power Query, VBA), SQL, Python (Pandas, NumPy, Data Wrangling, Data Cleansing), R (Statistical Analysis, Time Series)
- **Cloud & Integration Tools:** AWS (EC2, S3, Redshift), Google Cloud (BigQuery), Informatica, Talend, Alteryx
- **Project Management & Methodologies:** Agile (Scrum, Kanban), Waterfall, SDLC, RACI Matrix
- **Business Process Improvement & Lean Six Sigma:** SWOT Analysis, Root Cause Analysis (RCA), Fishbone Diagram, DMAIC
- **Soft Skills:** Critical Thinking, Problem-Solving, Communication, Negotiation, Stakeholder Collaboration, Time Management
- **Tools & Technologies:** Jira, Confluence, SAP (Materials Management), SAS, Git, GitHub, Trello, Microsoft Visio, Lucidchart, Minitab

WORK EXPERIENCE

IRIS

May 2023 – Present

Business Analyst

- Led the transition from Waterfall to Agile methodologies for the PMO, reducing project delivery timelines by 20% and increasing team collaboration efficiency.
- Conducted stakeholder interviews and created detailed BRDs and FRDs to outline project objectives, deliverables, and Agile transformation requirements.
- Designed Agile workflows and process maps using Microsoft Visio, streamlining project delivery cycles and improving task visibility.
- Facilitated Agile ceremonies, including sprint planning, daily stand-ups, and retrospectives, to ensure alignment between cross-functional teams.
- Developed a RACI matrix to clearly define roles and responsibilities, fostering accountability and collaboration across the organization.
- Utilized Jira and Confluence to manage sprint backlogs, track progress, and maintain a centralized repository of project documentation.
- Conducted training workshops for teams on Scrum and Kanban frameworks, enhancing understanding and adoption of Agile principles.
- Monitored and reported on key performance indicators (KPIs) post-implementation, achieving significant improvements in project delivery timelines and enhancing team productivity.

Morris Garages

July 2020 – June 2021

Business Analyst

- Collaborated with stakeholders to create BRDs and FRDs that aligned supply chain solutions with business objectives, reducing operational costs by 10%.
- Designed data integration workflows using Talend and Informatica to centralize supply chain data in AWS Redshift for real-time analytics.
- Created interactive dashboards in Power BI and Tableau to monitor supplier performance, inventory levels, and production timelines.
- Conducted inventory analysis with SQL and Python, categorizing components into fast-moving, slow-moving, and non-moving to optimize stock levels.
- Built forecasting models using R and time series analysis, cutting inventory holding costs by 12% and optimizing resource allocation across key departments.
- Identified bottlenecks in the supply chain using Root Cause Analysis (RCA) and fishbone diagrams, improving supplier lead times by 15%.
- Implemented Lean Six Sigma (DMAIC) principles to streamline procurement workflows and enhance overall efficiency.
- Automated notifications for inventory restocking and supplier performance alerts using Alteryx, ensuring proactive inventory management.

Trigent

Jan 2019 – June 2020

Business Analyst

- Gathered detailed requirements for optimizing inventory workflows and implemented solutions using SAP Materials Management to streamline processes.
- Analysed stock movement patterns using SQL, categorizing inventory into fast, medium, and slow-moving segments for better resource allocation.
- Applied Lean Six Sigma (DMAIC) to identify process inefficiencies, reduce lead times, and enhance procurement strategies.
- Conducted root cause analysis with Fishbone Diagrams, addressing supply chain delays and improving on-time delivery rates.
- Designed and developed real-time Power BI dashboards, enabling stakeholders to monitor inventory levels and critical KPIs.
- Created comprehensive BRDs and FRDs, ensuring seamless communication of requirements and deliverables to technical teams.
- Facilitated Agile scrum ceremonies, improving sprint completion rates by 15% and ensuring on-time project delivery using Jira and Confluence.

PROJECTS

Predictive Housing Market Analysis | Python, AWS Lambda, Flask, Heroku – Sept 2022

- Built a linear regression model with Python libraries like Scikit-learn and deployed it via Flask on Heroku for real-time housing price predictions.
- Automated data preprocessing with AWS Lambda, ensuring continuous updates for enhanced model performance.

Customer Sentiment Analytics Dashboard | Python, Snowflake, Power BI, NLP – April 2022

- Analysed Amazon Alexa product reviews using NLP techniques and migrated processed data to Snowflake for efficient querying.
- Designed a Power BI dashboard integrated with Snowflake to visualize sentiment trends and customer insights.

Hershey's Chocolate Sales Performance System | SQL Server, Apache Airflow, Tableau – Dec 2021

- Created a SQL Server database and implemented an ETL pipeline with Apache Airflow to automate data integration.
- Processed data using PySpark and built a Tableau dashboard for visualizing sales performance metrics.

E-Commerce Platform with Geospatial Integration | Django, GIS, Firebase, Stripe API – Aug 2021

- Developed a Django-based e-commerce platform with real-time vendor tracking using GIS integration and Firebase backend.
- Implemented secure payment solutions with Stripe API, enhancing the platform's user experience.

EDUCATIONAL QUALIFICATIONS

- **Master in Business Analytics**
University of New Haven
- **Bachelor in Electronics & Communication Engineering**
Jawaharlal Nehru Technology University, Hyderabad, India

CERTIFICATIONS

- ITIL V3, CCNA (R&S) Certified
