

NIKITHA KASARLA

Business Analyst

Massachusetts | nikithakasarla2@gmail.com | (617) 600-8144 | [LinkedIn](#)

SUMMARY

- Business Analyst with 3 years of experience, specializing in business process analysis, data-driven decision-making, and project management.
- Expertise in gathering and documenting business requirements: process modelling, workflow design, and gap analysis.
- Proficient in utilizing business intelligence tools to generate actionable insights and improve data visualization.
- Strong knowledge in data analysis techniques, including data cleansing, wrangling, statistical analysis, and A/B testing.
- Experienced in integrating cloud technologies enhance data processing and streamline reporting workflows.
- Extensive experience applying Agile methodologies and Lean Six Sigma to optimize business processes, improve efficiency, and reduce operational costs.
- Skilled in stakeholder management, risk management, change management, and cross-functional team collaboration to ensure project success and alignment with business objectives.

SKILLS

- **Business Analysis & Documentation:** Requirement Gathering, BRD, FRD, Use Case Development, Process Modelling (BPMN), Workflow Design, User Stories, Gap Analysis, Impact Analysis, Business Case Development
- **Data Analysis & Visualization:** Power BI, Tableau, Looker, Advanced Excel (Pivot Tables, VLOOKUP, XLOOKUP, Power Query), SQL (MySQL, SQL Server, PostgreSQL), Python (Pandas, NumPy), R
- **Enterprise Tools:** Jira, Confluence, SAP (Materials Management, FICO), Microsoft Dynamics 365, Salesforce CRM
- **Project Management & Methodologies:** Agile (Scrum, Kanban), Waterfall, SDLC, Stakeholder Management, Change Management, Risk Management
- **Business Process Improvement:** Root Cause Analysis (RCA), Lean Six Sigma, DMAIC, Process Reengineering, Continuous Improvement (Kaizen)
- **Soft Skills:** Critical Thinking, Problem-Solving, Communication, Negotiation, Stakeholder Collaboration, Time Management, Presentation Skills
- **Cloud & Integration:** AWS (S3, Redshift, Glue), Google Cloud (BigQuery), Azure (Synapse, Data Factory), Informatica, Snowflake
- **Data Analysis Techniques:** Data Cleansing, Data Wrangling, Statistical Analysis, Time Series Analysis, A/B Testing
- **Healthcare & Compliance Knowledge:** HIPAA, EMR, EHR, ICD-10, SOX, AML
- **Version Control & Collaboration:** Git, GitHub, Trello, Microsoft Teams, Slack
- **Other Tools:** Microsoft Visio, Lucidchart, ChatGPT

WORK EXPERIENCE

Molina Healthcare

Business Analyst

July 2024 – present

- Led requirement gathering and documentation for healthcare compliance initiatives, including BRD, FRD, and Use Case Development, ensuring alignment with HIPAA, ICD-10, and EHR standards.
- Utilized Power BI, Tableau, and SQL to analyse healthcare data, generating actionable insights to improve compliance tracking and reporting accuracy.
- Streamlined healthcare compliance processes by integrating cloud technologies (AWS, Azure), resulting in enhanced data accessibility and reporting efficiency.
- Managed cross-functional teams using Agile (Scrum, Kanban) methodologies to deliver iterative improvements in compliance workflows and documentation processes.
- Conducted Gap and Impact Analysis to identify areas for compliance optimization, reducing manual review processes and minimizing errors.
- Collaborated with stakeholders across departments to ensure alignment on healthcare compliance goals, achieving a 15% reduction in regulatory compliance issues.

Infosys BPM

Business Analyst

December 2020 to July 2022

- Conducted in-depth requirement analysis and created comprehensive documentation (BRD, FRD) for automating financial reporting processes, improving operational efficiency.

- Leveraged advanced Excel (Pivot Tables, VLOOKUP) and SQL (SQL Server, PostgreSQL) to automate financial data analysis, decreasing manual effort by 30%.
- Integrated cloud technologies (Google Cloud - BigQuery) and data tools like Informatica to enhance data processing and enable real-time financial reporting.
- Implemented Lean Six Sigma techniques to optimize reporting workflows, reducing errors by 20% and streamlining financial processes.
- Collaborated closely with SAP FICO teams to refine financial data management, improving accuracy and operational productivity.
- Ensured project milestones and risks were managed effectively using the Waterfall methodology, delivering automation solutions on schedule and within budget.
- Coordinated with stakeholders to ensure alignment on business requirements, resulting in improved collaboration and faster report generation.

Trigent

Business Analyst

October 2019 to Nov 2020

- Directed the requirement gathering and documentation (BRD, Use Case Development) for the development of an automated customer feedback system, aiming to optimize customer interaction and response handling.
- Performed data analysis using SQL (MySQL) and visualized key findings through Power BI and Tableau, uncovering insights that drove customer experience improvements.
- Integrated Snowflake and AWS (Redshift) to automate the feedback collection process, enabling real-time data processing and quicker response evaluation.
- Mapped out business processes and conducted gap analysis to align the system design with organizational goals and customer feedback needs.
- Utilized Agile (Scrum, Kanban) methodologies to manage project timelines and adapt to evolving client requirements, ensuring timely delivery of updates.
- Applied root cause analysis (RCA) and DMAIC to identify inefficiencies in the feedback process, leading to enhanced system performance and faster issue resolution.
- Coordinated with cross-functional teams using Jira and Confluence, ensuring smooth communication and efficient tracking of project milestones.
- Achieved a 25% reduction in feedback processing time, significantly improving customer response times and satisfaction levels.

PROJECTS

Process Optimization for Financial Data Management

- Conducted process reengineering and Lean Six Sigma techniques to improve the financial data management workflows, reducing errors and manual interventions.
- Integrated SAP FICO and Microsoft Dynamics 365 to streamline financial data processing and reporting, improving operational efficiency.

Automated Data Cleansing and Reporting Tool

- Developed a Python-based data cleansing and reporting tool, significantly reducing the time spent on manual data preparation and ensuring accuracy.
- Used AWS Glue to automate data extraction and transformation, feeding data into Tableau for real-time reporting.

EDUCATION

Master of Science in Business Analytics, Clark University | Worcester, MA

May 2024

Bachelor in Engineering, Jawaharlal Nehru Technological University | Hyderabad, India

September 2020
