Professional Summary

Detail-oriented and results-driven **Data Analyst** skilled in data visualization, statistical analysis, and database management. Proficient in tools like **Excel, SQL, and Tableau**, with experience in transforming raw data into actionable insights. Adept at creating interactive dashboards, optimizing datasets, and supporting data-driven decision-making. Passionate about solving complex problems through data analysis.

Technical Skills

- **Data Analysis & Visualization:** Excel (Pivot Tables, Formulas, Dashboards), Tableau
 - **Database Management:** SQL (Data Cleaning, Query Optimization)
 - **Data Tools:** Power Query, Power Pivot, MySQL Server
 - **Key Competencies:** Data Cleaning, Statistical Analysis, Interactive Dashboards, Storytelling with Data
-

Education

Sardar Patel University, Gujarat, India

Bachelor of Homeopathic Medicine and Surgery

Aug 2005 – July 2011

Professional Experience

Online Data Analyst Intern

KultureHire — Sep 2024 – Nov 2024

GitHub Project Link - <https://github.com/payal63/dataanalyst-internship>

- Cleaned and preprocessed raw datasets, ensuring high data quality and consistency.
 - Designed and executed complex SQL queries to extract and analyze key metrics.
 - Developed visually compelling Tableau dashboards to present findings to stakeholders.
 - Contributed to team projects by standardizing datasets and aligning analysis with business objectives.
-

Projects

GenZ Data Standardization & Analysis

- **Tools & Techniques:** Excel (VLOOKUP, Pivot Tables, Charts)

- Standardized GenZ survey data by resolving inconsistencies across metrics.
- Identified trends in career aspirations, work frustrations, and gender-based preferences.

Career Aspirations Dashboard

- **Tools:** Excel Dashboards (Slicers, KPIs, Charts)
- Analyzed top influences on GenZ career choices and preferred company traits.
- Created dynamic visuals showcasing salary distribution and gender-specific insights.

Manager Aspiration Dashboard

- Explored GenZ's willingness to work under challenging managerial scenarios.
- Applied advanced Excel features to visualize toxic environment impacts and manager qualities.
-

Mission Aspirations Dashboard

- Analyzed how GenZ evaluates company missions and aligns with their preferences.
- Created interactive dashboards with gender and environmental segmentation for storytelling.

SQL Cleaning Project

- **Tools:** MySQL
- Cleaned raw data by standardizing formats, handling null values, and removing irrelevant rows.
- Enhanced dataset reliability through preprocessing for further analysis.

SQL - Customer Segmentation

- Designed SQL queries to segment customers based on purchasing behavior.
- Presented actionable insights on customer trends to improve business strategies.

Tableau Sales Performance & Customer Dashboard

Dashboard link:

https://public.tableau.com/app/profile/payal.dhameliya/viz/sales_dashboard_V1_0/salesdashboard

- Developed an interactive Tableau dashboard combining Sales and Customer views for comprehensive analysis.
- Analyzed sales trends and product subcategory performance with Tableau visualizations
- Utilized advanced features like calculated fields and dynamic filters for granular insights.
- Visualized customer trends and distribution using Tableau. Ranked top profit-generating customers through Tableau metrics. Integrated views with dynamic filters for seamless exploration in Tableau. Maintained a consistent layout for improved user experience in Tableau.

Tableau & Excel HR Dashboard

- Created HR dashboard to analyze employee data by various categories.
- Used pivot tables, power query editor, and slicers for data analysis and visualization.
- Developed interactive dashboard to visualize the employee distribution and attrition factors by age, gender, job satisfaction, education level.
- Tableau:
