

Likitha Reddy Nalla

Chicago, IL 60616 | (479) 301-0794 | nallalikhareddy@gmail.com | <https://www.linkedin.com/in/likithanalla>

SUMMARY

Data-driven IT Professional with robust experience in data migration, analytics, and ETL processes, combined with strong expertise in SQL, Python, and data visualization tools like Tableau. Recognized for adaptability, proactive problem-solving, and effective cross-functional communication. Skilled in optimizing data quality and developing solutions that enhance business insights, efficiency, and system integrity.

EDUCATION

Illinois Institute of Technology, Chicago, IL
Masters of Science, Information Technology and Management

August 2023 - May 2025

Osmania University, Hyderabad
Bachelors of Engineering, Electronics and Communications

June 2018 - June 2022

SKILLS

- **Programming Languages:** Python, Java, C, R, Scala, HTML, CSS, JavaScript, Unix shell
- **Tools:** JupyterLab, PowerShell, Postman, Visual Studio, Pentaho
- **Data Management:** SQL, MySQL, SQL Server, Data Normalization, ERD
- **Cloud Platforms:** AWS, Azure
- **Data Visualization:** Tableau, Power BI, Excel, Pivot Tables, MATLAB
- **Big Data Technologies:** Apache Spark, Pandas, Kafta, Apache Airflow, Snowflake, Databricks
- **Project Management:** JIRA, GitHub
- **APIs:** REST API, JAX-RS, Fast API, Proxy Curl API
- **Operating Systems:** Windows, Linux

WORK EXPERIENCE

Cloud Database Intern, Quantta Analytics, India

June 2024 – August 2024

- Administered and maintained SQL Server databases on cloud platforms (AWS RDS, Azure SQL Database), ensuring high availability and performance.
- Led cloud migrations for SQL Server databases using tools like Azure Database Migration Service and AWS Database Migration Service, ensuring minimal downtime and data integrity.
- Collaborated with development teams to design and implement efficient database schemas, stored procedures, and functions, supporting high-performance applications.
- Automated routine maintenance tasks such as backups, index maintenance, and performance monitoring using PowerShell.
- Monitored database health and performance using cloud-native monitoring tools like AWS CloudWatch, Azure Monitor, and SQL Server Management Studio (SSMS), proactively addressing issues.

Apps Support Intermediate Analyst, DWS Group, India

May 2022 – July 2023

- Reviewing the service now tickets, debugging the issues, and finding the root cause of the issue to fix it.
- Actively participating in weekly release management calls with the development team, including fixing production issues and updating business requirements in the application.
- Deploying application software in Production and Contingency environments using uDeploy software.
- Participated in infrastructure migration activities to onboard applications in Production and Contingency environments.
- Programming SQL queries to extract and analyze data from relational and non-relational databases.
- Developed Tableau reports to keep track of service now data in our organization.
- Ensuring the services are up and running in the Production environment by monitoring application health through the ITRS product.
- Work with global production support teams to exchange functionalities and ideas to enhance the application by automating manual activities.
- Experience in OS & network troubleshooting using various tools like Top, free, iostat, ping, traceroute, netstat, nslookup, DNS, DHCP, TCP/IP etc.
- Tracking the enhancements/changes/bugs by writing the confluence pages.

Data Analyst Intern, New Balaji Agro Industries, India

April 2021 – March 2022

- Regularly executed data cleaning, transformation, and pre-processing techniques to maintain data integrity ensuring accuracy and reliability for all analytical outputs.
- Improved data cleansing processes by 25% by developing custom Python scripts, reducing data preparation time, and enhancing the accuracy of predictive models.
- Streamlined reporting processes by leveraging advanced Excel and SQL queries, optimizing the organization and visualization of large datasets, improving data accuracy by 18%, and enhancing decision-making efficiency.
- Developed interactive Power BI dashboards and ad hoc reports to solve complex business problems, driving a 22% increase in process efficiency and aiding in strategic decision-making across departments.
- Engaged in extensive data management activities, conducting thorough data analysis and gap assessments to identify areas for improvement and optimize data utilization.

PROJECT EXPERIENCE

Library Management

- Developed and deployed a Library Management System using PHP, HTML5, CSS3, Bootstrap, JavaScript, and PostgreSQL, addressing inefficiencies in manual resource tracking.
- Configured the system on Apache and Cat Servers, optimizing application accessibility and performance.
- Streamlined library resource management, reducing lookup and management time by 30% and improving user experience.

Mountain Goat Outfitters (Business Analysis)

- Worked with Mountain Goat Outfitters, a retail company. Using agile methodology, we worked as a team of five. Transferred company's paper records to digital records and cloud data storage.
- Collected functional and non-functional requirements of the company from the manager of MGO.
- Generated Use cases and reports, and prepared Gantt charts to keep track of the project.
- Worked on level 0 Data flow diagram, Entity relations diagram, and Data dictionary. Hardware and Software specifications are noted and presented.
- Developed wireframes of forms and reports using pencil software. Developed test cases, and prepared migration plan.

LinkedIn Connect

- Integrated Proxy Curl API within Pentaho ETL processes fetch data from 100+ LinkedIn profiles, including profile photos, improving data acquisition efficiency.
- Constructed MySQL tables from LinkedIn JSON files to create a LinkedIn Data Mart, optimizing data storage and retrieval for streamlined access.
- Designed comprehensive Power BI visualizations to analyze the LinkedIn dataset, showcasing expertise in ETL, database management, and data visualization, to facilitate actionable insights.

Certifications

Power BI for Data Analysts by Microsoft Press

Career Essentials in Data Analysis by Microsoft and LinkedIn
