

LEELA BHARANI TEDDU

📍 Dallas, Texas (willing to relocate) 📞 (512) 665-2091 ✉ leelabharani.teddu@gmail.com 🔗 [LinkedIn](#)

PROFESSIONAL SUMMARY

Experienced Data Analyst with a strong background in advanced statistical analysis. Proficient in SQL, R, Python for data interpretation and reporting, delivering actionable insights to stakeholders. Strong collaborative skills with a proven ability to manage multiple projects and solve complex problems. Committed to driving high-quality outcomes that align with business objectives.

SKILLS

Programming Languages: R programming, Python, C, C++, STATA.

Packages: NumPy, Pandas, Matplotlib, SciPy, scikit-learn, Seaborn, TensorFlow.

Reporting Tools: Visio, Looker, Google Analytics, AWS, Google Cloud Platform, Git, Salesforce, Oracle, JIRA, Power Query, Microsoft office 365 suite (Word, Excel, PowerPoint, Power Platform), Qlik Sense, Figma, Mixpanel.

Visualization Tools: MS Power BI, Tableau, SAS, JMP, Advanced Excel (Pivot Tables, VLOOKUP, VBA, Macros).

Data Base: MS SQL Server, MySQL, Snowflake, PostgreSQL.

Methodologies: Agile/SCRUM, SDLC, Waterfall.

PROFESSIONAL EXPERIENCE

RELATIVITY

Washington DC, USA

Business Analyst

Sept 2023 - Dec 2023

- Led **business requirements gathering** and documentation for 30+ actionable **user stories**, utilizing Microsoft **Excel**, Visio, and Seamless Docs to align business needs with technical solutions.
- Supported senior analysts in conducting stakeholder interviews and process flow diagramming, ensuring effective collaboration across business and technology teams.
- Applied **Agile** methodologies to manage sprints, product backlogs, and task workflows using Asana and **JIRA**, improving project outcomes and on-time delivery.
- Developed and presented data-driven insights using MS PowerPoint, enhancing decision-making through Risk analysis of LLMs using Generative AI.
- Tracked and managed project action items, aligning deliverables with project timelines to ensure high-quality execution.

WOLFSPEED Inc.

North Carolina, USA

Business Intelligence Analyst

May 2023 – Aug 2023

- Conducted **statistical data analysis** to detect anomalies using **MS Excel**, **JMP** and identified key trends in performance metrics for automation and operational enhancements.
- Implemented machine learning & advanced regression models using **Python** to compare actual vs. forecasted data, enhancing prediction accuracy by 85%. Optimized forecasting processes, driving actionable insights for improved business decisions.
- Collaborated with cross-functional teams to gather and document project requirements, acceptance criteria, developed **test plans**, created business process models, technology roadmaps, defined project scope and established timelines for project delivery.
- Analyzed complex manufacturing data, performed data extraction, transformation using **SQL**, produced **ad-hoc reports** & created over 20 interactive dashboards in **Power BI** for **KPI tracking & reporting**, provided **actionable insights** to stakeholders.
- Performed root cause analysis for business process, utilized ETL methodologies and **SQL Server** to optimize **data pipelines**, enhanced **data quality** and reduced Mean Absolute Error by 20%.

HINDUSTAN PETROLEUM CORPORATION LTD, HPCL

Visakhapatnam, India

Data Analyst

April 2022 - Aug 2022

- Pre-processed and analyzed extensive financial data related to portfolio attributes, historical sales, and market trends, delivered insights using MS Excel.
- Conducted risk and return analysis on petrochemical product portfolios, preparing detailed reports and providing actionable insights to stakeholders.
- Created **data visualizations** using **Tableau** and delivered comprehensive reports to cross-functional teams, improving decision-making.
- Performed **strategic analysis** using GTM and SWOT frameworks, delivering data-driven insights on market positioning, financial planning, and operational improvements.

RELEVANT PROJECTS

Telecom Churn Prediction

Python

- Developed a Machine Learning based predictive model to forecast customer behavior and achieved 87% accuracy rate.
- Conducted data analysis with linear regression algorithm and identified key factors influencing customer churn.

Credit Line Predictive Model

Python

- Executed multiple Linear Regression in Python, created decision tree data and constructed a safe model for credit approvals.
- Managed data integrity by handling missing values, encoded categorical variables, enhanced data quality by 33%.

EDUCATION

THE GEORGE WASHINGTON UNIVERSITY, School of Business

Washington DC, USA

Master of Science, Business Analytics

December 2023

SASTRA UNIVERSITY

Thanjavur, India

Bachelor of Technology in Electronics & Instrumentation Engineering

June 2020

CERTIFICATIONS:

Discovering SAP Digital Manufacturing, Agile Project Management.
