

RAJAT ROHILLA

Jersey City, NJ | 551-328-4664 | rohilarajat1@gmail.com | [LinkedIn](#)

SUMMARY

Results-driven Data Analyst with almost 4 years of success in diversified industries. Expertise in SQL, data analysis, and ETL processes, optimizing data pipelines for operational efficiency. Proficient at creating impactful data analysis using R, Python and SQL and adept at utilizing Tableau and Power BI for business intelligence. Recognized as a strong analytical thinker with a track record of effective contributions to cross-functional teams. Ready to bring industry-specific insights and excellence to new challenges.

PROFESSIONAL EXPERIENCE

Data Analyst | Horizon Blue Cross Blue Shield of New Jersey | New Jersey (Remote) **September 2023 - Present**

- Designed and implemented a machine learning model using Python and TensorFlow to predict patient outcomes, which improved prediction accuracy by 28% and contributed to a 15% reduction in patient readmission rates
- Conducted A/B testing on treatment protocols, resulting in a 22% improvement in patient recovery times, and designed and implemented machine learning models for enhanced predictive analytics
- Collaborate with cross-functional teams using Agile methodologies and Jira and Provide data-driven insights to support decision-making processes and develop and maintain documentation for data processes and models
- Developed an interactive Power BI dashboard that streamlined reporting processes, reducing report generation time by 40% and increasing stakeholder engagement by 60%. The dashboard integrated various data sources to provide real-time insights into patient care and operational metrics
- Created an ETL pipeline with SSIS to integrate data from five sources, processing over 10 million records daily with 99.9% accuracy, which enhanced data flow and overall data integrity
- Ensured data security and compliance with HIPAA standards while utilizing Git and GitHub for version control. Collaborated with cross-functional teams using Agile methodologies and Jira, leading to improved project coordination and delivery

Data Analyst | Birla soft | India **June 2019 - July 2022**

- Engineered a real-time fraud detection system with Python and Scikit-Learn, reducing fraudulent transactions by 35% and saving the company \$2.5 million annually. designed and implemented ETL processes for seamless data integration
- Developed customer segmentation model using K-means clustering, which increased the effectiveness of targeted marketing campaigns by 25%, created interactive dashboards in Tableau for real-time monitoring of financial metrics
- Designed an automated reporting system using SSRS that reduced manual report generation time by 80%, improved accuracy by 95%, and enabled in-depth exploratory data analysis to uncover fraud patterns and risk factors, significantly enhancing the company's risk management strategies
- Implemented a data lake solution on AWS, integrating seven disparate data sources, improving data accessibility by 70%
- Developed machine learning models for fraud detection, conducted A/B testing to optimize algorithm accuracy
- Implemented data encryption and security measures to safeguard sensitive financial information
- Identified and fixed discrepancies in the product data and sales analysis, enhancing **data accuracy** by 15% and facilitating better decision-making and efficient data utilization

Data Analyst Intern | Magic Software | India **September 2018 – January 2019**

- Led development and deployment of robust software applications and pipelines, facilitating seamless data handling and actionable report generation using Tableau, optimized performance, reducing processing time by 30%
- Devised open-source machine learning frameworks like TensorFlow, python, pytorch, Keras, spark

TECHNICAL SKILLS & CERTIFICATIONS

- Programming Languages:** SQL, Python (Pandas, NumPy, TensorFlow, Matplotlib), R (dplyr, tidyr, ggplot2), SAS, Scala
- Data Visualization:** Tableau, Power BI(DAX), Ervin, Excel (Pivot table, VLOOKUP, Nested if), Snowflake, Google Analytics, Qlik Sense
- Databases:** MySQL, PostgreSQL, MongoDB, SQL Server, Oracle
- Platforms & Tools:** Hadoop, Airflow, Power BI, Teradata, Oracle, GitHub, Git, JIRA, Agile, Waterfall, Qlik, ThoughtSpot, Alteryx
- Cloud Services:** AWS (S3, RDS, EC2, Lambda, Dynamo DB), Google Cloud Platform, Databricks, Data Lake, Microsoft Azure
- Other Technical Skills:** ETL Tools, SISS, SSRS, EDA, Probability distributions, Confidence Intervals, SAS, Hypothesis Testing, Regression Analysis, Linear Algebra, Advance Analytics, Data Mining, Data warehousing, Data transformation, Clustering, Classification, A/B Testing, Forecasting & Modelling, Data Cleaning, Data Wrangling, Ad Hoc Analysis, Project Management, Quantitative Analytics, Clustering, Text Classification, Predictive Analysis, Graph modelling, Linear Algebra

EDUCATION

Master of Science in Business Intelligence and Analytics | Stevens Institute of Technology **GPA: 3.9** | Hoboken, NJ **May 2024**

Courses: Data Analytics and Machine Learning, Database Management, Business Intelligence, Financial Decision Making

Bachelors of Technology (Computer Science) | UIET, Kurukshetra University | Kurukshetra | Haryana | India **Sept 2019**
