

EDUCATION:

Arizona State University, Tempe, USA

Expected May 2025

MS, Data Science, Analytics and Engineering (Computing and Decision Analytics) (3.50/4.00)

Coursework: Analyzing Big Data, Advance Database Management System, Data Mining, Statistical Machine Learning

University of Mumbai, Mumbai, IND

May 2022

BE, Electronics and Telecommunication Engineering (7.61/10.00)

Coursework: Python, Database Management System, Neural Network and Fuzzy Logic, Image Processing and Machine Vision, Java

TECHNICAL SKILLS:

Analytical tools: Power BI, MS Excel, Tableau | Languages: Python, SQL, HTML, CSS

CERTIFICATIONS:

- Data Visualization with Tableau , Google Data Analytics Professional Certificate

PROJECT EXPERIENCE:

PwC Switzerland Power BI Job Simulation on Forage [Power BI | DAX Studio]

- Completed an intensive Power BI job simulation, enhancing data visualization techniques for client presentations; achieved a 30% reduction in report preparation time and increased data clarity by 35%.
- Engineered sophisticated Power BI dashboards that highlighted critical KPIs, leading to a 15% improvement in decision-making efficiency and a 25% boost in client engagement through tailored, visually compelling presentations.
- Communicated complex data analyses through clear and informative emails, resulting in a 25% improvement in partner collaboration and a 10% rise in project efficiency.
- Conducted in-depth SQL analysis of HR data, uncovering gender-related KPIs and root causes of disparities; informed policy changes that led to a 30% boost in gender equity at the executive level.

Energy Domain [SQL]

- Evaluated electricity generation and cost data for hydroelectric, wind, solar, and nuclear energy across 25 countries; presented findings in detailed SQL and Excel reports, contributing to a 10% increase in energy efficiency.
- Evaluated international electricity production metrics and generation costs, providing actionable insights that facilitated a 10% improvement in energy efficiency and cost savings for cross-border operations.

Accenture North America Data Analytics and Visualization Job Simulation on Forage [Excel]

- Completed a simulation focused on advising a hypothetical social media client as a Data Analyst at Accenture.
- Cleaned, modelled and analyzed 7 datasets to uncover insights into content trends to inform strategic decisions.
- Prepared a PowerPoint deck and video presentation to communicate key insights for the client and internal stakeholders.

PhishScan: Automated Phishing Identification using Machine Learning [Python | Machine Learning | Large Language Models]

- Analyzed 11,430 website Web Page Phishing Detection Dataset, leveraging features like URL structure and traffic, to train machine learning models, achieving 97% accuracy in identifying phishing sites and enhancing security protocols.
- Designed and tested multiple classifiers including Logistic Regression, Support Vector Machines, Decision Trees, Recurrent Neural Networks (RNNs), Graph Neural Networks (GNNs), Random Forests, XGBoost and K-Nearest Neighbors (KNNs) to establish baseline results.
- Implemented an advanced multi-modal methodology using BERT transformers for URL tokenization, resulting in a increase in classification accuracy and optimizing model performance.
- Programming tools used: Python, TensorFlow, PyTorch, Scikit-learn, Pandas.

INTERNSHIP EXPERIENCE:

Data Analyst Intern

March 2023 - May 2023

APSSI Tech Solution, Remote, Hyderabad

- Reduced SLA for healthcare document classification by **96%** using **Python**, Tesseract OCR and regex.
- Created **Tableau** dashboards, improving insurance business report efficiency by **30%**.
- Analyzed datasets in **Excel**, removing **15%** outliers, and improved data accuracy using **Python** and **Pandas**. Redefined in progressive pricing decision-making, increasing predictive accuracy by **20%** with **Excel**-based time series analysis.
- Enhanced project delivery efficiency by **25%** through the effective use of **scrum/agile** methodologies with engineering and business teams.

LEADERSHIP EXPERIENCE:

University President, Ramrao Adik Institute of Technology, Mumbai

Jan 2022-April 2022

- Led stakeholder engagements and addressed business requirements by collaborating with students, faculty, and staff.
- Balanced independent leadership with teamwork, driving campus initiatives and fostering a collaborative environment.
- Employed attention to detail in organizing events and programs, demonstrating self-motivation and timely project completion.
- Communicated effectively with diverse stakeholders, ensuring clear and impactful messaging.
