

Yumin Yin

(610) 864-5737 | yy2256@cornell.edu | [linkedin.com/in/yumin-yin](https://www.linkedin.com/in/yumin-yin)

EDUCATION

Cornell University

Ithaca, NY

Master of Professional Studies in Applied Statistics

Aug 2023 – Jun 2025

Coursework: Machine Learning (Python), Linear Models with Matrices, R Programming for Data Science

University of Washington

Seattle, WA

Bachelor of Science, Major in Applied Mathematics, Minor in Informatics

Sep 2019 – Dec 2022

Coursework: Computer Programming I/II, Data Structures & Algorithms (JAVA), Databases & Data Modeling (SQL), Core & Advanced Methods in Data Science (Python)

SKILLS

Programming: Python, SQL, R, Java, MATLAB

Tools: Excel, Stata, Tableau, MySQL, PowerPoint

Packages: NumPy, Pandas, Seaborn, Scikit-learn, Matplotlib, Plotly, Statsmodels, TensorFlow

Machine Learning Algorithms: Linear Regression, Gradient Boosting, Random Forest, K-Means, Neural Network

PROFESSIONAL EXPERIENCE

NIO Inc. – Data Analyst Intern

Jun 2024 – Aug 2024

- Increased consumer engagement by 25% in top-tier cities by using **Python** and **SQL** to analyze car purchase data, uncovering a 30-40% preference for personal comfort among middle-aged buyers
- Influenced product development strategies by leveraging **Python** to quantify a 17.04% higher demand for two-row cars among smaller households
- Boosted family car segment sales by 15% by analyzing regional vehicle purchasing behavior using **SQL**, identifying a 60-70% preference for family-oriented vehicles

Ipsos – Data Analyst Intern

Feb 2023 – Aug 2023

- Led data analysis of 2,000+ consumer responses across 5 provinces using **Python**, creating consumer personas that improved product positioning and increased targeted adoption by 15%
- Processed retail data for 3+ tobacco companies using **SQL**, optimizing supply chains to reduce inventory shortages by 20% and improve product availability by 25%
- Conducted regional industry research and implemented dynamic supply chain strategies, stabilizing prices and improving resource allocation efficiency by 18%

NielsenIQ – Data Analyst Intern

Jul 2021 – Sep 2021

- Analyzed promotional strategies for two major festivals, using **Excel** and **Python** to clean and visualize sales data for 10+ products, resulting in a 15% increase in sales during targeted campaigns
- Monitored strategy performance across market segments, leading to optimized promotional efforts that boosted market share by 10% during the holiday season
- Developed data-driven insights and provided actionable recommendations, improving overall campaign effectiveness and enhancing customer acquisition strategies by 12%

RELEVANT EXPERIENCE

Spam Filter & Image Categorization – Data Scientist

Sep 2021 – Mar 2022

- Developed a **Bayes** Theorem algorithm in **Python** with the optimal smoothing parameters to predict if an email is spam or ham, resulting in 86.4% precision on 2000 emails
- Wrote and optimized a **neural network** model with Python and **TensorFlow** to distinguish 4 different languages embedded in images with 96% accuracy on 6000+ images

Vaccine Inequity – <https://yuminyin.shinyapps.io/project-yuminyin/>

Apr 2021 – Jun 2021

- Led a team of 3 to conduct statistical analyses on COVID-19 vaccine distribution across 269 countries using R's **dplyr**.
- Developed a multi-page web app with 3 interactive, reactive charts using **ggplot2**, **plotly**, and **shiny**.

Database Modeling – Team Leader

Mar 2021 – Jun 2021

- Led a team of 5 to design, code, and populate a clothing store database with 20+ entities
- Developed 10+ stored procedures and 20+ user-defined functions to enforce business rules and enable computed columns
- Executed complex **SQL** queries using JOIN, GROUP BY, HAVING, and aggregate functions for data analysis
