EXPERIENCE

Data Analyst

Syfan Logistics

- 📅 04/2024 - Present 📍 Gainesville, GA
- Identify and remove corrupted data
 - Developed complex SQL queries to extract, aggregate, and analyze large datasets from relational databases (e.g. SQL Server, MYSQL)
 - Use statistical tools to identify, analyze, and interpret patterns and trends in complex data sets that could be helpful for prediction of events
 - Prepare reports using PowerBI when possible with SQL Databases, DAX query, Analysis Server
 - Partner with cross-functional teams to align data strategies with business objectives
 - Foster data-driven culture, empowering colleagues with actionable insights
 - Ensure data accuracy and integrity through meticulous quality control processes
 - Develop comprehensive documentation for data management protocols

Lead Data Analyst

Samsung

- 📅 11/2022 - 02/2024 📍 Location
- Analyzed large amounts of data in Excel to identify trends, patterns, signals and hidden stories within data
 - Created pivot tables and VLOOKUPS in Excel to join 2 data sets together and pull key components
 - Integrated SQL-based data quality checks, improving reporting accuracy by 25%.
 - Wrote SQL scripts for business-critical reports and analyses, improving data accessibility and enabling faster decision-making
 - Utilized Power BI to create interactive and informative data visualizations, dashboards, and reports for business stakeholders, resulting in improved data-driven decision-making.
 - Built forecasting models using Power BI's time intelligence functions, improving demand prediction accuracy by 20%.
 - Automated data cleansing processes using Excel VBA, reducing data cleaning time by 30%

Data Analyst

Consult R

- 📅 04/2021 - 09/2022 📍 Atlanta, GA
- Navigate master data, including creation, updates and deletion
 - Used TOAD for Oracle to generate reports and datasets for product sales and marketing improvements
 - Optimized SQL queries, reducing query execution time by 30% and improving report generation efficiency
 - Developed and maintained 50+ Power BI and Tableau dashboards, supporting decision-making across multiple departments.
 - Designed a sales analytics dashboard that reduced manual reporting time by 85% and provided real-time insights.
 - Analyzed existing SQL queries to identify opportunities for improvements
 - Identifying key areas for improvements, such as audience, acquisition, behavior, and conversions, product sales by 11%

Data Analyst

Verizon

- 📅 09/2020 - 02/2021 📍 Marietta, GA
- Built Power BI dashboard to visualize core business KPIs (e.g., Monthly Recurring Revenue), saving 10 hours per week of manual reporting work
 - Analyzed data from 10000 monthly active users and used outputs to guide marketing and product strategies; increased average app engagement time by 2x, 12% decrease in dropout rate, and 2x shares on social media
 - Collaborated with 4 interns to conduct attitude study, which led current buyers to purchase products 10% more frequently

SUMMARY

Lead Data Analyst with 5 years of experience on leveraging SQL, Power BI, and Excel to deliver actionable insights and enhance data-driven decision-making. Proficient in creating interactive data visualizations and optimizing. data processes, contributing to improved operational efficiency and revenue growth. Committed to fostering a data-driven culture and aligning data strategies with business objectives, while continuously advancing skills in data warehousing and communication.

KEY ACHIEVEMENTS

-  **Efficiency Improvement**
Decreased manual reporting work by 10 hours monthly through Power BI utilization.
-  **Data Process Automation**
Automated data cleansing, reducing total cleaning time by 30% with Excel VBA.
-  **Enhanced User Engagement**
Analyzed user data leading to 2x increase in app engagement time and social shares.
-  **Query Performance Boost**
Optimized SQL queries, reducing execution time by 30% for improved report generation.

SKILLS

Microsoft Power BI		Tableau	Pivot Table
SQL	Power BI	Excel	DAX Query
Excel VBA	Databases	AWS	Python
Data Validation		Data Migration	
Data Entry			

COURSES

[Master Power BI Desktop for Business Intelligence by Maven Analytics](#)

EDUCATION

Computer Information Science

Georgia Gwinnett College
