- Set up experiment rooms for participants, measured food samples, prepared tubes for saliva samples, and set up Qualtrics surveys.

Publications

Yeboah, A. B., Parker, J. E., Matos, L. M., Wilson, P. A., & Tomiyama, A. J. (2024). The Relationship Between Racial Attitudes and Disordered Eating Behaviors in Black Men and Black Women. *The International Journal of Eating Disorders*, 10.1002/eat.24290

Work Experience

University of California, Los Angeles, Life Science 30A: Mathematics for Life Science	September 2024
<i>Teaching Assistant</i>	

- Lead and facilitate three weekly lab sections, assisting over 70 Life Science students with modeling biological and epidemiological systems using Python and guiding them through mathematical and calculus models.
- Conduct weekly drop-in hours and problem-solving sessions to answer students' questions and reinforce class concepts, improving students' comprehension.
- Apply teaching pedagogy to foster an inclusive and engaging learning environment, promoting active participation and critical thinking.
- Grade exams, input grades, and manage student communication, ensuring timely and clear feedback.

Health Career Connection, Oakland, CA	June 2024- August 2024
<i>Summer Intern</i>	

- Placed at the University of California Office of the President (UCOP), Community-Based Cancer Research Program (CBCRP).

- Evaluated the effectiveness of CBCRP special program initiatives, such as the California Breast Cancer Program Initiative, by conducting a literature search of current manuscripts that were funded by the initiative and entered the data into Excel and creating a presentation on PowerPoint based on the evaluation.
- Entered data via Excel and Smart sheet regarding program funding decisions at council meetings and priority-setting meetings that will inform the communication on future CBCRP grants.
- Assisted in the budgeting and planning of CBCRP community outreach initiatives in Fresno, San Bernardino, Sacramento, and Salinas.

Positive Physical Therapy, Santa Monica, CA

December 2021- June 2022

Physical Therapy Aide

- Created and completed medical records for new and returning patients to the clinics.
- Verified patient insurance with various insurance agencies and confirmed patient prescriptions with a doctor.
- Instructed patients in proper exercise techniques to improve mobility.
