

Alena Prakharenka

Citizen of USA and Belarus

Currently unemployed

Current location: Miami, Florida, USA

Mobile phone number and Viber +13466693017, WhatsApp +13466693017 |

E-Mail: alena.prakharenka@gmail.com | Skype: alena_prakharenka

Professional Summary

Exceptionally focused and reliable person with an outstanding work ethic and knowledge base. Able to work well independently or as a part of a professional team

Core Qualifications

Experience

- Java 7, SQL, Maven, Git, SVN, logging, Jenkins, XML, HTML, JSON, JSP, IDEA, Eclipse, Agile methodology, Atlassian JIRA (TMS), SQL Developer, JUnit, Mockito, J2EE, adb

Internship

- Spring (Core, MVC, Security), Hibernate frameworks, Java 7, HQL, MySQL, JDBC, MVC, Apache Tomcat, JSP, HTML, MVC (model-view-controller)

Online courses

- Java 8-17, YAML, Spring Boot, CSS
- Algorithms, Data Structures
- Tools: Oracle/MySQL databases, Linux, ADB
- Selenium, TestNG, JUnit, Gauge, Cucumber, Page Object Model, UIConductor
- PL/SQL
- HTML, Bootstrap, JavaScript, Angular
- Python
- not in detail REST API, MongoDB, Redis Cache, Microservices, AJAX
- currently in the process of online learning Vue

Experience

Since December 1, 2023 till May 11, 2024 lived in Belarus country and was unemployed, not working

Since May 11 I am located in Houston and unemployed, not working

ACCOUNTANT

APRIL 2023- NOVEMBER 2023 (7 MONTHS)

MINGORISPOLKOM

MINSK, BELARUS

Accounting and reports creation

SOFTWARE ENGINEER (coding 40% of time)

JULY 2022-OCTOBER 2022 (3 MONTHS)

INFOSYS

MOUNTAIN VIEW, CA, USA

Software development using Java 7, Kafka, Cassandra, PL/SQL, SOLR, Swagger

Extraction of the data from the database and reflecting the result on application UI

MANUAL TEST ENGINEER

MAY 2018-DEC 2021 (3 YEARS 7 MONTHS)

INFOSYS

MOUNTAIN VIEW, CA, USA

- Manual testing of Android Platform for Pixel Phones: core system functionality, setup, audio, camera, application compatibility, wi-fi, bluetooth, sensors, media, device administration, managed provisioning, projection, NFC, CTS Verifier and etc. Test plan improvement

SOFTWARE ENGINEER (Project 3, coding 40% of time, not complex logic, 40% configurations)

NETCRACKER

JAN 2017-APR 2017 (4 MONTHS)

MINSK, BELARUS

([HTTPS://EN.WIKIPEDIA.ORG/WIKI/NETCRACKER_TECHNOLOGY](https://en.wikipedia.org/wiki/NetCracker_Technology))

- Developed a warehouse order processing web application using Java 7, SQL
- Not complex logic, for development I used a predefined set of classes and methods and overrode (changed them) a little bit with 2-15 lines of code
- Coding 40% of time, not complex logic, 40% configurations

SOFTWARE ENGINEER (Project 2, coding 40% of time, not complex logic, 40% configurations)

NETCRACKER

AUG 2016 -DEC 2016 (5 MONTHS)

MINSK, BELARUS

([HTTPS://EN.WIKIPEDIA.ORG/WIKI/NETCRACKER_TECHNOLOGY](https://en.wikipedia.org/wiki/NetCracker_Technology))

- Developed a warehouse order processing web application using Java 7, SQL

- Not complex logic, for development I used a predefined set of classes and methods and overrode (changed them) a little bit with 2-15 lines of code

- Coding 40% of time, not complex logic, 40% configurations

SOFTWARE ENGINEER (Project 1, coding 40% of time, not complex logic, 40% configurations)

NETCRACKER

JAN 2016 - JULY 2016 (7 MONTHS)

([HTTPS://EN.WIKIPEDIA.ORG/WIKI/NETCRACKER_TECHNOLOGY](https://en.wikipedia.org/wiki/Netcracker_Technology))

MINSK, BELARUS

- Developed a warehouse order processing web application using Java 7, SQL
- Not complex logic, for development I used a predefined set of classes and methods and overrode (changed them) a little bit with 2-15 lines of code
- Coding 40% of time, not complex logic, 40% configurations
- Implemented functionality that allows to create custom order life cycles and rules for order status transitions depending on order data, create different types of orders, extracted relevant data from database; wrote user input validation
- Improved the performance of application and optimized data structure use, tested developed functionality
- Fixed bugs, performed logging, exception handling
- Adjusted configurations in internal tools used for development (40% of time)

SOFTWARE ENGINEER, INTERN

SAM SOLUTIONS

SEP 2015-DEC 2015

MINSK, BELARUS

- Developed Java 7 Web application using Spring (Core, MVC, Security), Hibernate Frameworks, JUnit

Education

MASTER'S DEGREE IN COMPUTER SCIENCE, GPA 4.25, BY CORRESPONDENCE, PART-TIME

2015- 2017

Belarusian State University of Informatics and Radioelectronics

BACHELOR'S DEGREE IN FINANCE, GPA 3.9 , FULL TIME, SCHOLARSHIP

2009- 2013

Belarusian State Economic University

Additional Education

JAVA WEB DEVELOPMENT TRAINING

SEPT 2015 - NOV 2015

EPAM Systems

Course projects: Java Core, multithreading, parsing (XML, XSD, StAX), web development (J2EE, JDBC, SQL), design patterns

Awards

BRONZE MEDAL IN THE MOGILEV STATE MATHEMATICAL OLYMPIAD, BELARUS
