PROFESSIONAL EXPERIENCE

Document Preparation Specialist II
Capital Farm Credit | College Station, TX

07/2020 – Present

- Manage and prepare documents for accounts ranging from \$50,000 to \$10 million, ensuring accuracy and timely processing, contributing to smooth loan closures and client satisfaction
- Generate and enter customer information for Change in Term Agreements, ensuring all documents are accurately prepared and signed at closing, facilitating efficient loan modifications
- Collaborate closely with the Legal department to address complex easement, entity and acreage issues, ensuring compliance and minimizing delays in the documentation process
- Serve as a key liaison, interacting daily with Loan Officers, Lawyers, Managers and Customer Relationship Specialists, fostering strong interdepartmental communication and ensuring seamless document flow
- Audit finalized loan packages for completeness and accuracy prior to funding, verifying all required signatures, documents and approvals are in place, reducing risk and ensuring regulatory compliance

Rural First Loan Processor
Farm Credit Mid-America | Louisville, KY

09/2019 – 04/2020

- Acted as a primary point of contact for Loan Officers and customers, delivering prompt and clear communication to ensure seamless loan processing and superior customer experience
- Collected and verified critical borrower documentation - including employment, income and asset/liability records - accelerating loan approval timelines and reducing underwriting delays
- Partnered daily with underwriters, loan closers and the appraisal management team to coordinate efficient workflow and ensure accuracy across all stages of the loan process
- Played a key role in onboarding and supporting new partner associations, contributing to a smooth organizational transition and maintaining continuity in service and loan operations
- Streamlined document intake and processing procedures by identifying inefficiencies, resulting in improved turnaround times and enhanced collaboration across cross-functional teams

Agriculture Science Teacher
Bastrop Independent School District | TX

08/2019 – 08/2019

- Led weekly team practices and monthly chapter meetings, fostering student engagement and enhancing participation in agricultural events, resulting in an increase in student involvement at state-level competitions

- Organized and submitted paperwork and entry fees for state shows, ensuring timely and accurate documentation that contributed to a smooth and successful participation for students annually
- Coordinated monthly show animal checks with students and parents, improving animal care standards and ensuring compliance with industry regulations, leading to an improvement in student project outcomes
- Teamed up with the county extension office to ensure the implementation of up-to-date agricultural practices and regulations, enhancing students' real-world knowledge and supporting the development of practical skills

Broiler Service Technician

05/2017 – 07/2018

Simmons Foods | Siloam Springs, AR

- Collaborated with growers to ensure adherence to USDA, company and consumer specifications, leading to improved compliance and a significant reduction in quality-related issues
- Provided training and education to growers on poultry production and husbandry best practices, resulting in an increase in farm efficiency and healthier livestock
- Serviced multiple farms weekly, ensuring strict adherence to company guidelines and maintaining consistent product quality, contributing to an improvement in production consistency
- Collected and submitted weekly samples to the state laboratory, leading to accurate and timely testing that met industry standards and supported regulatory compliance

Research Assistant

02/2016 – 05/2017

Texas A&M AgriLife Research | College Station, TX

- Supported Dr. Jason Lee in conducting advanced research in the Nutrition Lab, contributing to the successful completion of multiple graduate-level projects
- Performed rigorous testing on various samples, generating accurate data to support research on animal nutrition and energy efficiency
- Operated the bomb calorimeter to measure gross energy content of samples, ensuring precision in results that directly impacted the lab's research findings
- Assisted in the wing banding and placement of chicks, ensuring proper management and organization within the research facility, contributing to the accuracy of experimental setups

Intern

05/2016 – 08/2016

Hy-Line North America | Wilton, IA

- Assisted in the successful transfer of 42,000 layers from grower houses to layer houses, ensuring minimal stress on the birds and maintaining optimal conditions throughout the process
- Gained hands-on experience in layer facilities and hatcheries, learning best practices in poultry production and facility management to enhance operational efficiency
- Shadowed a compliance manager and actively participated in audits, contributing to the identification and resolution of compliance issues and enhancing operational standards
- Worked alongside a poultry veterinarian during a commercial egg-laying facility tour, conducting bird health assessments and identifying abnormalities, which helped ensure optimal production conditions

EDUCATION

Bachelor of Science in Poultry Science | GPA 3.5

Texas A&M University | College Station, TX
