Results-driven Data Analyst with a proven track record of transforming complex data into actionable business insights. I specialize in business intelligence and data analysis, using advanced analytics techniques and visualization tools to optimize processes and support strategic decision-making. I combine technical expertise with strong communication skills to lead cross-functional teams and drive impactful business outcomes. I'm always eager to learn new methods and apply innovative solutions to solve challenging problems and improve organizational performance.

Skills

- Statistical Analysis
- Data Visualization
- Predictive Analytics
- AI/ML
- SCRUM
- SQL
- Jira
- Confluence
- Tableau
- Agile
- Asana
- AI/ML

Experience

● DATA OPERATION ANALYST Apple Jan 2021 - Present

- Led comprehensive language data research and analysis in both English and Spanish to support AI/ML operations.
- Analyzed and refined user input data to improve the digital assistant's response accuracy, enhancing contextual understanding and interaction precision.
- Conducted in-depth assessments of software responses to ensure compliance with strict SLA requirements, ensuring accuracy and quality through meticulous evaluation.
- Participated in and successfully completed complex data projects, evaluating and managing intricate data tasks.
- Collaborated with cross-functional teams to integrate language data insights into product development cycles, driving data-driven enhancements to AI performance.
- Managed and updated data visualization dashboards to track AI performance metrics, utilizing insights to improve natural language processing algorithms and implement data quality control measures for high-accuracy training datasets.

● CONTENT MODERATOR Accenture Oct 2019 - Dec 2021

- Analyzed and resolved content issues related to account support and safety, leveraging data insights to enhance service efficiency, using comprehensive data visualization dashboards to track performance metrics.
- Trained and mentored team members on data analysis techniques, ensuring consistent and high-quality support delivery.
- Responded promptly and accurately to user inquiries using data-driven approaches, developing and implemented a new data annotation framework, reducing processing time.
- Led team meetings to clarify procedures and align on productivity, quality benchmarks, and KPIs, ensuring objectives were met and driving improvements in operational efficiency.
- Contributed to a collaborative work environment through insightful feedback sessions and coordinated cross-team efforts to optimize data workflows.

- CLIENT PROJECT COORDINATOR

Freelance

Oct 2016 - Oct 2019
- Participated in client projects, ensuring timely delivery and adherence to quality standards throughout the process.
 - Acted as a liaison between clients and internal teams, effectively addressing feedback and clarifying requirements through data analysis insights.
 - Managed project timelines, tasks, and milestones with a focus on data accuracy, ensuring project goals were met while identifying opportunities for optimization.
 - Provided regular data-informed updates to clients on project status and adjusting plans as necessary to align with evolving needs and objectives.
 - Collaborated with cross-functional teams to streamline project workflows and resolve data-related issues, enhancing overall project efficiency and client satisfaction.
