

Antoni Bibillo

Walnut Creek | 408-500-1015 | antek.bibillo@gmail.com

OVERVIEW

University of California Los Angeles (UCLA) Master of Quantitative Economics graduate with hands-on Internship experience from Kaiser Permanente. Versed in statistical analysis, machine learning modeling in Python, and data extraction/manipulation for SQL. demonstrated ability to develop data-driven insights and communicate technical findings effectively.

EDUCATION

University of California, Los Angeles (UCLA)

Sep 2023 - Mar 2025

M.A., Quantitative Economics

- **Coursework:** Machine Learning and Big Data for Economists, Applied Econometrics with Python, Data Science for Financial Time Series, Microeconomic theory, Macroeconomic Theory, Empirical Industrial Organization, Incentives Information and Markets

University of California, Riverside (UCR)

Sep 2018 - Sep 2022

B.A., Economics/Administrative Studies

- **Coursework:** Econometrics, Senior Seminar, Urban Economics, International Trade, Linear Algebra, Intermediate Macroeconomic Theory, Intermediate Microeconomic Theory, Land and Resource Economics, Statistics for Economics, Concentration in Information Systems

EXPERIENCE

Kaiser Permanente

Oct 2024 - Jan 2025

Optical Services Admin Intern

- Analyzed consumer behavior by conducting statistical analysis for the optometry department, contributing to decision support and operational insights.
- Developed statistical machine learning models in Python using Statsmodels, creating logistic regression, decision tree classifiers, LASSO, and matched pair design models .
- Constructed SQL queries and navigated Kaiser's demographic and appointment database. with the purpose of extracting data for statistical analysis in Python.
- Presented findings to the optometry executive committee. Built various graphs, tables, and figure to help with data visualization and effective communication for a non-technical audience using matplotlib and seaborn.

SKILLS

- **Programming Languages:** Python, SQL, Stata
- **Python:** Core programming language of the MQE program and Kaiser Permanente Internship, mainly used for statistical analysis
- **Python Packages:** Pandas, NumPy, PyTorch, Scikit-Learn, Statsmodels, Seaborn, Matplotlib, and more
- **SQL:** Experienced in the navigation of databases, and the construction of queries for the purpose of modeling from Kaiser Internship
- **Stata:** Primary programming language during undergraduate program
