Objective

Data-driven professional with a strong foundation in applied data science and machine learning, backed by MIT's Applied Data Science Program (ADSP). Proficient in Python, SQL, Tableau, and Power BI, with expertise in supervised and unsupervised learning, regression analysis, recommendation systems, neural networks, and AI-driven decision-making. Skilled in statistical modeling, data visualization, and applying AI/ML techniques to real-world business problems.

Adept at leveraging automation to enhance efficiency, ensure data integrity, and drive strategic insights. Committed to delivering innovative, data-driven solutions that optimize productivity and align with organizational goals.

Work Experience

Command Centre Engineer/Systems Specialist/Analyst, VanCity Savings Credit Union,
Remote/Vancouver, B.C.

- Process Automation: Use Control-M & DollarU to automate data workflows across production and other environments.
- System & Data Monitoring: Utilize SIEM Splunk for system stability, security, and availability; maintain documentation and run playbooks.
- Incident Management: Troubleshoot, document, and escalate issues using ServiceNow & PagerDuty, ensuring high service levels.
- Deployment & Vendor Coordination: Manage batch processing, code releases, and vendor collaboration for system maintenance and upgrades.
- ETL Processes: Resolve ETL failures in Azure Pipelines and Business Intelligence workflows.

May 2022 - Present

Education

Applied Data Science Program (ADSP) Cert, Massachusetts Institute of Technology (MIT)

- Developed expertise in machine learning, deep learning, AI-driven decision-making, ChatGPT & Generative AI, NLP, Transformers, LL Modules, & Prompt Engineering, Rag.
- Applied supervised and unsupervised learning, including regression, classification, clustering, neural networks, and recommended systems
- Built recommendation systems and explored network analysis for real-world applications.
- Strengthened skills in Python, statistics, and data visualization with Pandas, NumPy, Matplotlib, and Seaborn.
- Implemented time-series forecasting, decision trees, random forests, and computer vision techniques.
- Gained hands-on experience with Scikit-learn, TensorFlow, Keras, and PyTorch for model development and deployment.

2024 - 2025

Data Analytics Diploma, Lighthouse Labs (LHL)

- Tools & Environment: Python, R, SQL, PyCharm, Jupyter, VSCode, Power BI, Tableau
- Data Processing: ETL workflows, Pandas, NumPy, APIs (Postman), PostgreSQL, SQLite
- Statistical Analysis: Probability, distributions, inferential statistics
- Data Visualization: Power BI, Tableau, Matplotlib, Seaborn, Plotly, Geopandas
- Machine Learning: Scikit-Learn, TensorFlow/Keras, NLTK
- Big Data & Cloud: Apache Spark, PySpark, MLlib, Azure Pipelines
- Version Control & Deployment: Git, CLI, SQL for data analysis

2024

- Windows Server & Network Administration
- CCNA 1-4 & Computer Server Hardware
- Python Programming, Linux Administration & PowerShell
- Managing Virtualization Technologies: Hyper-V, VMware, Oracle VirtualBox
- Deploying Cloud Services: Office 365, AWS, Azure Cloud
- Managing Network Services & Network Security: FortiGate, FortiSIEM, Palo Alto, SIEM Splunk

Certificates

<u>TensorFlow Deep Learning with Python, Certificate, Udemy</u>	2024
<u>Data Analyst Associate with Power Bi, Certificate, Udemy</u>	2024
<u>Digital Marketing Analytics Certificate & Digital Marketing, Udemy</u>	2024
<u>Google Cybersecurity Certificate, Coursera</u>	2023
<u>Law Enforcement Studies Diploma (LESD), Justice Institute of British Columbia (JIBC)</u>	2014 - 2016

Skills

- Libraries & Deep Learning: Tensor FLOW, Keras, PyTorch, Numpy, Pandas, Scikit-learn, Matplotlib, & Seaborn
- SQL & Databases: PostgreSQL, Microsoft SQL Server; data access, transformation, and ETL.
- Quality Assurance & Data Analysis: Data validation, exploratory & trend analysis, cost analysis, KPI reporting, market research, survey analysis, performance metrics, and report generation.
- Monitoring & Automation: Splunk, Control-M, Dollar Universe, Temenos T24 Gamma, UiPath Orchestrator, PagerDuty, ServiceNow, Vertiv, Citrix.
- Cloud & Virtualization: AWS, Microsoft 365, Azure DevOps, Hyper-V, VMware, Oracle VirtualBox.
- Networking & Systems Administration: Cisco Certified (CCNA 1-4), DNS, DHCP, Active Directory, VPN, Exchange, IIS, Group Policy.
- Firewall & Security: FortiGate, Palo Alto; network security management.
- Business & IT Communication: Effective correspondence in business & law enforcement settings.
- Microsoft & Google Workspace: Word, Excel (Advanced), PowerPoint, Outlook, Access, Docs, Sheets, Slides, Forms, VBA, Google Colaboratory.
- Soft Skills: Analytical thinking, problem-solving, attention to detail, critical thinking, team collaboration, time & project management, adaptability, and presentation skills.
- Certifications: BCIT Information Systems Administration Diploma (Systems administration, network management, database design, IT security), Google Data Analytics Certificate, SQL Certification.
- Business & Economics Knowledge: Microeconomics, Macroeconomics, Business Mathematics, Business Statistics, Accounting, Academic Research, Marketing.

Dear Hiring Manager,

I am thrilled to apply for the Data Scientist/Analyst (DS/DA) position at your organization. With over three years of experience in data analysis and systems optimization, coupled with a strong educational foundation, I am eager to contribute my skills to drive actionable insights and support your strategic initiatives.

Since May 2022, I have been working as a Command Centre Engineer (Systems Specialist/Analyst) at VanCity Savings Credit Union, where I focus on monitoring, automation, deployment, and troubleshooting within IT operations. My role involves maintaining system stability, data workflows, and process automation while collaborating with cross-functional teams to ensure operational efficiency. I work with Splunk, ServiceNow, PagerDuty, Control-M, and Azure Pipelines to monitor and optimize system performance, manage ETL processes, and automate workflows for enhanced data processing and reporting. Additionally, I contribute to documentation and knowledge management, ensuring consistency in technical procedures and operational efficiency.

I have completed the Applied Data Science Program (ADSP) Certificate at the Massachusetts Institute of Technology (MIT), where I advanced my expertise in supervised and unsupervised learning, machine learning, deep learning, and recommendation systems. This builds upon my Data Analytics Diploma from Lighthouse Labs, where I gained hands-on experience with Python, R, and PostgreSQL for statistical modeling and data visualization. Additionally, my Computer Information Systems Administration (CISA) diploma from BCIT has provided me with a strong foundation in network management, cloud services, and data security.

Your organization's dedication to innovation and data-driven decision-making aligns perfectly with my passion for solving complex problems through analytics. I am excited about the opportunity to bring my technical skills and analytical mindset to your team.

Thank you for considering my application. I would welcome the opportunity to discuss how my experience and qualifications align with your needs.

Sincerely,

Ashwin Pal
