SUMMARY

Detail-oriented and results-driven **Data and Real Estate Analyst** with **3+ years** of experience in financial modeling, data analytics, and performance optimization. Proficient in **Python, SQL, Excel**, and BI tools like **Tableau, Power BI**, and **Argus**, with hands-on expertise in **ETL, predictive analytics**, and **cloud platforms** such as **AWS** and **Snowflake**. Adept at turning complex data into actionable insights that support strategic decisions and business growth.

SKILLS

Technical: SQL, Python (Pandas, NumPy, SciPy, Scikit-learn), R, Statistics, ETL, Data Visualization, Real Estate Analytics, Market Research

Tools: Tableau, Power BI, Excel (Pivot Tables, VLOOKUP, Power Query), Argus, Alteryx, Apache Airflow, Snowflake, AWS (S3, Redshift, Athena, Lambda), QGIS, Google Earth Pro, ArcGIS, Costar.

PROFESSIONAL EXPERIENCE

Northern Trust, USA

July 2024 – Present

Data Analyst

- Conducted advanced **financial modeling** and **trend analysis** using **Python** and **SQL** to identify anomalies, reducing reporting discrepancies by **20%**.
- Developed **ETL pipelines** with **Snowflake** and **Apache Airflow**, improving data processing efficiency by **35%**.
- Integrated **AWS tools** such as **S3** and **Redshift** to ensure secure storage and fast retrieval of large **datasets**.
- Collaborated with **stakeholders** to define **KPIs** and metrics, enhancing dashboard usability and alignment with **business goals**.

Kalamandir Jewellers, USA

Jul 2023 – Dec 2023

Business Analyst – Customer Analytics

- Developed interactive **Tableau dashboards** and performed **customer segmentation**, reducing inventory costs by **15%** and increasing campaign engagement by **20%**.
- Analyzed **transaction data** using **SQL** and **R**, uncovering trends that increased repeat purchases by **12%** and improved seasonal inventory planning.
- Built automated **Python ETL pipelines**, enhancing real-time analytics accuracy and reducing data preparation time by **40%**.

Rajhans Realty, India

Jan 2020 – Mar 2022

Real Estate Analyst – Asset Management

- Underwrote **\$30M+** in multifamily and mixed-use acquisitions, evaluating **IRR, DSCR, ROC**, and **equity multiples**.
- Built and maintained models in **Excel** and **Argus**, improving forecasting accuracy by **20%** across **15+ deals**.
- Led asset performance tracking and cash flow analysis for a **10-property portfolio**, identifying underperforming assets and recommending strategies that improved **NOI by 12%**.
- Conducted lease comps, zoning reviews, and demographic analysis, reducing **vacancy risk by 18%**.
- Used **ArcGIS, QGIS**, and **Google Earth Pro** to analyze site feasibility and infrastructure proximity, optimizing **location-based decisions**.

EDUCATION

Drexel University, College of Computing and Informatics

Master of Science (M.S.) in Information Systems,

Philadelphia, PA

June 2024

PROJECTS

Customer Churn Prediction – TELCO Company / Python, Scikit-learn, SQL

- Built a predictive model with **80.3% accuracy** to identify churn-prone customers by cleaning data, handling missing values, and scaling features to improve retention strategies.

Sales Performance Dashboard / Tableau, SQL, Excel

- Developed an interactive dashboard to visualize sales, profit, and quantity trends, enabling comparison of **year-over-year performance** and improving insights by **23.7%**.
