PROFILE

An enthusiastic learner pursuing an **MS in Business Analytics** at the University of Massachusetts Amherst. Passionate about leveraging data to derive actionable insights, combining. Eager to apply data analytics to drive business strategy, continuously enhancing technical proficiency in analytical tools and techniques to deliver tangible value in professional settings.

Education

University of Massachusetts Amherst <i>Master of Science in Business Analytics(Amherst, Massachusetts)</i>	Jan 2024-May 2025 GPA: 4/4
Maharaja Sayajirao University of Baroda <i>Bachelor of Arts in Psychology(Vadodara, India)</i>	May 2021 CGPA: 8.77/10

Experience

Data Analyst Intern Pardy Panda Studios	Summer 2024 <i>Vadodara, India</i>
--	--

- Optimized data pipelines by cleaning and analyzing large datasets in **Python**, improving data accuracy by 20%.
- Enhanced decision-making by defining key performance indicators (KPIs) and building interactive **Power BI** dashboards, leading to a 10% improvement in business insights.
- Influenced executive decision-making by presenting data-driven insights to C-Suite, HR, and clients using **PowerPoint**, leading to a 15% improvement in stakeholder engagement.
- Drove strategic initiatives by delivering compelling data **visualizations and reports**, directly impacting business decisions and improving alignment across teams.

Applied Behavior Analysis Intern Children's Institute of Development & Advancement for Learning	Summer 2019 <i>Vadodara, India</i>
--	--

- Implemented Applied Behavior Analysis (ABA) techniques to support children with learning and developmental difficulties, achieving improvements of 40% and 65% for two children, respectively.
- Collaborated with multidisciplinary team to develop individualized intervention plans; conducted behavioral assessments, collected data, and contributed to progress reports

Projects

Bitcoin Analysis Project

- Implemented **ARIMA models**, **Relative Strength Index (RSI)**, and **Sharpe ratios** using **Python (pandas, numpy, statsmodels)** to analyze Bitcoin price trends and assess investment risks.
- Explored **portfolio diversification** techniques and **momentum-based** strategies to understand their impact on risk-adjusted returns.
- Developed a **structured report and presentation**, effectively communicating **data-driven insights** on Bitcoin's speculative nature and volatility patterns.

Home Price Prediction

- Built predictive models** using linear regression, decision trees, and random forests, evaluating performance based on **RMSE** and **R²** scores.
- Conducted exploratory data analysis (EDA)** using **pandas** and **matplotlib** to identify the most influential housing features affecting prices.
- Compared model performance** and **fine-tuned hyperparameters** to improve predictive accuracy, presenting findings through a structured report and visualization.

Comparative Study on Regression Models for Airfare Prediction

- Analyzed airfare trends** across city pairs, assessing the impact of Southwest Airlines' market presence using **Analytic Solver, R, and SAP**.
- Developed and compared statistical regression models**, quantifying competition's effect on ticket pricing.
- Documented findings** in a structured report, showcasing insights into airline pricing trends and competitive market behavior.

Technical Skills

Languages: Python, SQL

Framework/Libraries: NumPy, Pandas, scikit-learn, Matplotlib, seaborn

Databases: PostgreSQL, MySQL

Tools: Jupyter, Google Colab, Power BI, Tableau, Alteryx, R Studio, SAS, ERD Plus, MS Access

Excel (Advanced): VBA, Macros, Pivot Tables, Power Pivot, VLOOKUP, XLOOKUP, Conditional Formatting, Solver, What-If Analysis

Project Management: MS Project, Agile, Scrum

Soft Skills: Written & Verbal Communication; Attention to Detail, Problem-Solving; Time Management, Organization, Team-work & Collaboration
