

GREG STEELE

SUMMARY

I am a life-long learner and innovator, a data analyst, a stats enthusiast, and a creator. As a data science professional, I provide high-quality data ingestion, standardization, warehousing, analysis, and visualization. My core competencies are the ability to tell the story the data presents to a diverse array of audiences and the thirst to learn more.

SKILLS

Data Analysis

Snowflake, SQL Server (T-SQL, DDL, DML, CTEs, window functions, stored procedures, ETL, user-defined functions), PostgreSQL, Python libraries (Pandas, Numpy, Scikit-learn), Excel (VBA, VLOOKUPs, Pivot Tables, Array Functions)

Data Visualization

[Tableau](#) (LOD expressions, parameters, parameter actions, dynamic zone visibility), PowerBI (DAX, M, Power Query, relationship modeling), Looker Studio, Jupyter Notebooks (Matplotlib, Seaborn, Plotly), Excel, Domo, Mode

Statistics

T-tests, Z-scores, Linear Regression, Logistic Regression, Ridge Regression

Data Extraction

Web-scraping (Requests, BeautifulSoup, Selenium)

Model-Building

[True Plus-Minus](#)

Web Design

Created [The Basketball Database](#) (website) from scratch, HTML, CSS

EXPERIENCE

Sr. Data Analyst | *Greek God of Stats* | Jul 2022 - present

- Migrated and developed **50 reports** in Tableau in support of marketing department
- Improved lead generation and conversion efforts by delivering critical insights from Salesforce data and call-center data
- Drove cross-training of staff to **redress 50% loss** within key segment
- Developed and administered **suite of 30 Power BI reports** for staffing division
- Lead migration of reports from Excel to Tableau
- Migrated data models from SQL Server to Snowflake

Sr. Data Analyst | *Lightbeam Health Solutions* | Jan 2019 - Jun 2022

- **Cleared six-month backlog** of new provisioning tickets by automating standardization process
- Improved client confidence developing new data validation report
- **Reduced throughput from 2 weeks to 1 hour** by automating data cleaning and standardization with stored procedures in SQL Server
- Reduced time spent mapping procedure codes and diagnosis codes by 30 minutes per code
- **Saved 10 hours/month** by automating production of reports in Jupyter Notebooks
- **Doubled team capacity** by training cross-sectional coworkers
- Visualized data validation with Tableau

Teacher | *Life School Oak Cliff, Garland ISD* | Jan 2014 - Jan 2019

ACHIEVEMENTS

- Built and tested a regression model for analyzing NBA player performance, *Oct 2022*
- Created a static website from scratch (www.thebasketballdatabase.com), *Jun 2022*
- Developed new reports and automated production of reports, *2021-2022*
- Optimized provisioning of new interface from two-week process to less than an hour, *2021*
- Published The Basketball Bible, *Jul 2019*
- Dyslexia Interventionist of the Month, *Feb 2019*
- Teacher of the Year, Life School Oak Cliff Secondary, *2017*
- Professional Potential Award, Abilene Christian University Graduate School of Theology, *May 2012*
- Published "The Theology of Hiddenness in the Gospel of Mark: An Exploration of the Messianic Secret and Corollaries" in *Restoration Quarterly*, 54:3, 2012, 169-185.
- Awarded Prentice and Barbara Meador Endowed Scholarship, *April 2011*
- Presented a paper entitled "The Text of John 1.18" at Southwest Regional Society of Biblical Literature Conference, *Mar 2011*

EDUCATION

Abilene Christian University, Abilene, TX

Masters of Divinity	Spring 2012		GPA: 4.0	
B.A. Christian Ministry	Fall 2008		GPA: 3.94	<i>Summa Cum Laude</i>
