EXPERIENCE

Asset Marketing Services, Inc.

Data & Reporting Analyst

Eagan, MN

August 2021- Present

- Developed and maintained reporting dashboards in Power BI, Hyperion, and SSRS for business users across departments, including Finance, Marketing, Procurement, Accounting, Warehouse, and Compliance. Acted as a liaison between IT and business units.
- Led the transition from a legacy ERP system to Microsoft Dynamics 365 – Finance & Operations, migrating data, streamlining processes, and ensuring business continuity.
- Managed BYOD imports/exports in Dynamics 365 and utilized Azure tools (PySpark, Python, SparkSQL, and Databricks) to migrate legacy ERP data to the Data Lake.
- Built predictive models using Pecan AI to evaluate potential market expansion and success rates.
- Modernized data infrastructure to a common data model using Databricks, improving data integration and scalability.
- Created and optimized SQL queries for reporting and analytics, ensuring data accuracy and consistency.

Körber Supply Chain (formerly HighJump Software)

Solutions Consultant

Bloomington, MN

November 2018- July 2021

- Designed, configured, and implemented Körber WMS for domestic and international clients.
- Developed and optimized SQL queries, functions, and stored procedures to enhance supply chain operations.
- Created custom reports and dashboards using SQL Server Reporting Services (SSRS), SAP Crystal Reports, Bartender.
- Provided on-site consulting and led projects as a solution architect, ensuring seamless implementations.

Jump Technologies, Inc.

Systems/Network Administrator Intern

Eagan, MN

January 2017-August 2017

- Implemented OpenVPN using pfSense for secure employee access and configured network firewalls.
- Monitored office network infrastructure using PRTG, optimizing wireless network speed and performance.
- Managed software deployments and updates for remote and on-site employees.

University of Minnesota- Twin Cities-College of Science and Engineering (CSE)

Student Systems Administrator

Minneapolis, MN

September 2015- August 2016

- Assisted students and faculty with system administration tasks, including OS installations, server configurations, and network troubleshooting.
- Maintained undergraduate computer labs and resolved technical issues for faculty members.
