Objective

I am a dedicated individual with a strong analytical foundation and leadership experience as a collegiate hockey captain. Passionate about leveraging data-driven insights to enhance decision-making in a meaningful industry. Seeking an entry-level role to apply machine learning and statistical analysis skills to drive performance and innovation.

Education: Bachelors of Science, Data Science at Northern Arizona University

Fall 2021 - Graduate May 2025

Acquired skills in statistical analysis and computer science. All four years we developed programs in Python, C, and R. Currently in my senior year I have earned a desirable skill set and I hope to absorb as much knowledge of my field as possible. The Education taught me fundamentals of computer science to facilitate the automation of tedious tasks, data storage, and algorithmic problem solving. Along with statistical science foundations like data **collection methods, model linear and non-linear relationships, and create predictive models**. Along with Data Science, my experience with Outdoor Education and Leadership cultivated my leadership style by challenging individuals to make decisions in dynamic environments, fostering resilience, teamwork, and self-confidence through hands-on experiences and collaboration with diverse groups.

Relevant coursework:

STA 478: Computed Intensive statistical methods: CV, GAM's, Trees, Bootstrapping, MCMC.

CS 345: Basic principles of Database systems, data manipulation language and data definition language

CS 249: Data Structures: Design, analysis, and implementation of abstract data types such as sets, lists, trees, heaps, and graphs.

STA Courses: Applied statistical methods simple and multiple regression, ANOVA, experimental design, and categorical data analysis. Curvilinear, and multiple curvilinear regression models. Simple, multiple, and partial correlation and variable selection techniques.

Participated in **NAU ASA DataFest 2025**: DataFest is a celebration of data in which teams of undergraduates work around the clock to find and share meaning in a large, rich, and complex data set.

Work Experience

Office Assistant - Kit Carson RV Park (Flagstaff AZ): June 2024- Dec 2024

Maintain and **organize physical and digital file databases** of space rental agreements. Provide friendly **customer service** in-person, on phone calls, and emails. Help customers make reservations over the phone or at the physical office. Operate according to long term RV park act and housing laws. I was able to demonstrate my ability to **create and maintain an organized system to store information** for the company that not only helped short term problems when transitioning to new management but created a foundation for future use.

Lift Operator - MCP (Flagstaff AZ): 2024 season, 2025 season

As a Ski Lift Operator, I ensured the safe and efficient operation of ski lifts while providing excellent customer service to guests. Responsibilities included assisting with loading and unloading, maintaining clear and safe lift areas, monitoring equipment, and promptly addressing mechanical issues or emergencies. This role required strong **communication skills, attention to detail**, and the ability to work outdoors in diverse weather conditions, all while creating a welcoming and safe environment for visitors. While working this position during school semesters the position taught me the importance of **time management** and what working hard for yourself can bring to your life.

PT Tech- The Core Institute(Peoria AZ): Summer 2022

As a Physical Therapy Technician I performed tasks that enabled a Physical Therapist to conduct effective therapy sessions in a safe, sanitary environment and see patients in a timely manner. Prepare treatment areas for appointments, set up equipment, welcome patients and assist them in routines maintaining overall organization for the clinic and equipment.

Leadership Experience

NAU Hockey – 4 Years, 2 Years Captain:

Served as college hockey captain for four years, demonstrating strong leadership, teamwork, and communication skills. Effectively coordinated team strategies, fostered a positive environment, and motivated teammates to achieve their full potential. Managed team dynamics and represented player concerns with coaching staff, contributing to consistent performance improvements.
