Enterprise QA Leadership | Program & Project Management | Agile & DevOps Practices

Forward-thinking Senior QA Manager with 10+ years of experience leading enterprise-level QA initiatives across SaaS, healthcare, finance, and life sciences. Certified Scrum Master and PMP candidate skilled in driving shift-left testing, automation, and CI/CD adoption using Cypress, Katalon, Playwright, Robot Framework, TestRail, Jira, Azure DevOps, and GitHub Actions. Proven record of boosting automation coverage from 65% to 85%, cutting regression cycles by 53%, and delivering over 25+ successful launches at 95% test coverage. Recognized for building high-performing distributed teams, integrating QA into early design and development ensuring compliant regulatory and business standards.

AREA OF EXPERTISE

Quality Strategy & Process Optimization | Risk Management & Compliance | Test Strategy Implementation | Budget Planning & Cost Control | Data Quality & ETL Testing | Multi-Project Delivery Oversight | Stakeholder Communication | Root Cause Analysis | Leadership & Talent Development | AI-Enhanced Testing Solutions | CI/CD & DevOps Integration

PROFESSIONAL EXPERIENCE

Career Break 2025 - Dedicated time to upskilling by completing PMP and CSM certifications while advancing leadership, Agile, and quality engineering skills.

VelocityEHS - Remote Senior Quality Assurance Manager

Aug 2024 – Jan 2025

Championed end-to-end QA strategy for high-traffic EHS SaaS platform relied upon by more than 500 corporate clients worldwide. Successfully directed distributed QA organization of six highly skilled engineers across three Agile pods, balancing automation expansion with hands-on critical manual validation.

- Automation Engineering:** Propelled automated test coverage from 65% to 85% within a single quarter; re-architected the Katalon automation suite with Page Object Model structure.
- QA & Risk Management:** Streamlined regression cycles by 10% and cut production defects by 10% through early risk-based testing and targeted root-cause analysis in regression cycles.
- Quality & Delivery Optimization:** Delivered 25+ successful product launches while maintaining 95% test coverage, enhancing product stability and customer satisfaction.
- Exploratory Testing Enablement:** Expanded automation suite from 75 to 150+ Katalon scripts, achieving 15% gain in release speed and freeing resources for deeper exploratory testing.

Lytho, Inc. - Remote Software Quality Assurance Manager

Nov 2023 – Aug 2024

Increased QA throughput by aligning seven distributed engineers across 24-hour test cycles while ensuring continuous coverage and rapid turnaround. Developed executive-facing KPI dashboards visualizing real-time QA KPIs, sprint velocity, and quality trends for transparent leadership reporting.

- Team Leadership & Development:** Established QA department from inception into fully operational Agile, automation-driven testing organization of seven, embedding measurable quality gates into every release.
- Financial Accountability:** Maintained fiscal discipline by bringing QA initiatives in 12% under projection while efficiently controlling \$180K operational budget.
- Project Management:** Managed high-performing cross-functional QA teams with 95% retention, mentoring team members through Agile maturity to accelerate product delivery and quality outcomes.
- Quality Improvement:** Elevated release quality by driving 33% decline in production bugs within six months through data-driven manual test optimization and Cypress automation integration.

Sharecare - Remote Software Quality Assurance Manager

Dec 2021 – Nov 2023

Led quality strategy and operations for 11 QA engineers across three major product portfolios, aligning release planning, automation, and compliance under a unified roadmap. Achieved eight consecutive HIPAA audits with zero non-compliance findings through rigorous validation and traceability controls.

- **Agile QA Integration:** Eliminated critical defects up to two sprints earlier by embedding QA in initial sprint ceremonies and enforcing shift-left testing culture.
- **Budget & Cost Management:** Drove financial efficiency by delivering \$350K+ projects under budget and implementing contractor optimization strategies yielding \$140K+ in annual savings.
- **Quality Assurance Standards:** Decreased manual testing dependency by 60% by introducing Playwright automation framework while upholding consistent quality benchmarks.

Catalina USA - Remote**Dec 2020 – Dec 2021****Senior Software Quality Assurance Engineer**

Sustained 100% system uptime during Black Friday's peak demand period through disciplined load and integration testing initiatives. Engineered Scala-based validation modules that reinforced Azure DevOps pipelines across Azure environments.

- **Defect Prevention & Quality Improvement:** Boosted defect identification by 30% by repositioning integration tests earlier in the CI/CD lifecycle.
- **Hybrid Automation Development:** Automated 20% of regression coverage using hybrid Scala-Python framework, cutting validation cycles and heightening team throughput.

Alert Innovations - Hybrid**May 2019 – Dec 2020****Senior Software Quality Assurance Engineer**

Prevented 45% of potential production incidents through proactive test design and pre-release analytics. Augmented regression feedback loops by 83%, offering near real-time insights to engineering teams.

- **SDET & Technical Leadership:** Founded the company's automation testing program and led SDET initiative that introduced Robot Framework and Python, establishing foundation for ongoing QA automation.
- **Cross-Domain QA Expertise:** Architected the evolution of the company's testing ecosystem, expanding test coverage from 60% to 95% across robotics and system interfaces.

ADDITIONAL EXPERIENCE

Sr. CSV Consultant, PQE Group / Takeda | Dec 2018 – May 2019

Sr. Software Quality Assurance Contractor, Depository Trust & Clearing Corporation Aug 2016 – Jan 2018

Sr. Software Quality Assurance Contractor, UMass Medical School | Apr 2016 – Jul 2016

Software Quality Assurance Manager, A.G. Mednet | Dec 2014 – Dec 2015

PROFESSIONAL QUALIFICATIONS

Project Management Professional (PMP) Certification, Syracuse University - IVMF | Expected Date: Jan 2026

Certified Scrum Master (CSM), Scrum Alliance | 2025

Certified Key Performance Indicators Professional (CKPIP), Udemy | 2024

Building and Training the Project Team/ Selecting a Project Management Approach/ Supporting Agile Team Performance (2021 Update), Skillssoft | 2025

Engaging Team Members and Stakeholders/Leading the Team (2021 Update – Global), Skillssoft | 2025

Generative AI Architectures & Prompt Design - Starweaver, FutureLearn | 2025

MABL AI Automation, Mabl | 2025

AI Workplace Efficiency, SuperhumanAI | 2025

Artificial Intelligence Ethics, Compliance, Trust, Safety and Governance, Udemy | 2025

Product Management Certification + Agile Product Owner/ GraphQL - Beginner's Course, Udemy | 2024

TestRail Administrator, Gurock | 2023

Bachelor's Degree (Equivalent Experience)
