UNIVERSITY PROJECTS

ONLINE WEB BASED EVALUATIONS

December 2024

- With Java/CSS/HTML, utilized SpringBoot and OOP to revamp a system designed to streamline and manage employee evaluations, departmental structures, and company hierarchies. Able to be deployed on Tomcat, this system provides a robust platform for managing organizational structures while maintaining secure and efficient evaluation processes.

CASH REGISTER

December 2022

- With C++, developed a cash register-like system that used OOP to track the demand for different snacks and currency.

ACTIVITIES

LEADERSHIP

High School Football Captain

- Led Team of 50 players to Regional Playoff Appearance in 2020
- Set an example and maintained a high standard of responsibility
