|--|------------------------|-----------------------------|
| Programmer Analyst - Cognizant, | Coimbatore, Tamil Nadu | June 2019 - Apr 2021 |
|--|------------------------|-----------------------------|
- Developed Qlik Sense dashboards using custom widgets and Vizlib extensions. Handled both developer and admin responsibilities. Trained team members on Qlik Sense development. Strong experience with SQL, Set Analysis, KPIs, Section Access, Ad-hoc reporting, ApplyMap, and incremental load techniques. Received **Excellent Performer** rating in 2021.
- | | | |
|--|------------------------|-----------------------------|
| Programmer Analyst Trainee – Cognizant, | Coimbatore, Tamil Nadu | June 2018 - May 2019 |
|--|------------------------|-----------------------------|
- Worked on ETL Testing for an insurance based company. Skilled in RDB and Data Warehousing concepts.

EDUCATION

Sri Sairam Engineering College	Chennai, Tamil Nadu	Aug 2014 to Apr 2018
---------------------------------------	----------------------------	-----------------------------

Bachelors of Engineering in Electronics and Communication Engineering. (Graduated in First class) **GPA: 8.49**

Relevant Courses: Computer Programming, OOP and Data Structures, Computer Architecture, Computer Networks, Principles of Management, Total Quality Management

PROJECTS

-
- SSRS Reports** - Designed and developed multiple SSRS reports tailored to executive and operational needs, including Management Summaries, Blended Benchmark Productivity, Rolling 12-Month Visit & wRVU Analysis, Procedure Code Usage, Template Expectations, Collaborative Care, and Revenue Growth Trends (MoM & YoY).
 - Tableau and Power BI Dashboards** – Built interactive Power BI and Tableau dashboards for Executive Leadership, Clinic Managers, and Providers. Delivered insights on Operational Excellence, Growth & Expansion, Scorecard Inputs, Schedule Utilization, Visit & wRVU Trends, and Comprehensive Patient Analysis over rolling 12-month periods.
 - Qlik Sense Dashboards and NPrinting** - Developed five Qlik Sense dashboards and one NPrinting report to support In-Field Team members. Visualized data related to Medical Contracts, Transactions, and Immunization Records to enable real-time decision-making and data tracking.
 - Data Extraction** - Extracted and transformed complex datasets based on client-specific reporting requirements using advanced SQL.. Optimized queries for improved performance and ensured high data accuracy for seamless integration with reporting tools.

Environment: Power BI, Tableau, SSRS, Visual Studio, JIRA, Azure Devops, Qlik Sense, Microsoft SQL server, Excel

TECHNICAL SKILLS

-
- Reporting Tools: Power BI, Tableau, SQL Server Reporting Services, Qlik Sense
 - Databases: SQL Server Microsoft Office Skills: MS Word, MS Excel, MS Powerpoint
 - Technology/Concepts: Agile Methodologies, Jira, Azure Devops, Unit Testing, OOP, SDLC
 - Problem Solving: Data Structures and Algorithms(Intermediate Level) • Languages: Java(Intermediate Level), C#
