### SUMMARY

Graduate student in Information Systems with 3+ years of ERP and software experience, specializing in data analysis, reporting and dashboard development using Python, SQL and Power BI. Skilled in translating data into actionable insights to support informed decision-making and organizational goals. Currently seeking Data/Business Analyst roles.

### SKILLS

**Languages/Tools:** Python, SQL, Power BI, Excel, DAX, R, Java, REST APIs, HTML/CSS, JavaScript, MERN

**Libraries:** Pandas, NumPy, Matplotlib, Plotly, Scikit-learn

**Platforms:** Oracle EBS, GitHub, JIRA, Postman, Tableau, MS SQL Server, IntelliJ, Visual Studio

**Concepts:** Data Analysis, Data Visualization and Cleaning, EDA, Reporting, Business Intelligence, KPI Tracking, Statistical Modelling

### EDUCATION

**San Diego State University** — M.S. in Information Systems 2024 – Dec 2025 | GPA: 4.0

**Graduate Certificate in Advanced Web & Mobile App Development** — SDSU 2022 – 2023 | GPA: 4.0

**B.E. in Electrical, Electronics & Power** — BAMU, India 2012 – 2016 | GPA: 3.8

### RELEVANT EXPERIENCE

**Data Analysis Intern** — Center for Inclusive Excellence, SDSU (Jan 2025 – Mar 2025)

- Developed Power BI dashboards for strategic equity planning initiatives.
- Conducted data analysis using Excel and Power BI to identify trends and summarize findings.
- Streamlined data workflows by automating recurring reporting tasks, enhancing timely access to key metrics across departments.

**Technical Consultant** — Birlasoft, Pune, India (Nov 2019 – Aug 2021)

- Used Oracle EBS, SQL, and Excel to design reports and perform data validations.
- Migrated legacy data with scripts ensuring integrity and system alignment.
- Developed custom dashboards for clients to monitor KPIs and business metrics.

**Software Developer** — Finastra Software Solutions, Pune, India (Dec 2017 – Jul 2019)

- Developed and maintained Java and SQL based applications to support core banking operations.
- Created and tested APIs to track banking operations and user activity.

### DATA ANALYTICS PROJECTS

**FMCG Warehouse Inventory Optimization | Python, Pandas, Matplotlib, Ridge & Lasso Regression, KNN** (Spring 2025)

- Analyzed supply-demand imbalance across 50+ warehouses, applying regression to forecast shipment volumes.
- Identified key shipment drivers: storage issues, refill frequency and transport reliability using Ridge Regression
- Segmented warehouses using KNN to flag overstock risk, enabling pre-emptive resource planning.
- Delivered business focused recommendations to reduce logistic delays, rebalance inventory & reduce spoilage.

**Healthcare Data Analysis | Python, Pandas, Plotly, Matplotlib** (Fall 2024)

- Conducted data cleaning and EDA on synthetic healthcare data to derive actionable hospital insights.
- Analyzed disease trends, demographics, and insurance patterns to recommend improvements.
- Built visualizations and reports to provide actionable insights supporting hospital decision-making.

**Equity Analysis Dashboard | Power BI, Excel** (Spring 2025 – Internship project at SDSU)

- Designed and deployed 4 interactive dashboards to track diversity, equity, and inclusion KPIs across university departments.
- Created data models, applied calculated measures using DAX, and automated report refresh workflows to cut manual reporting time by 25%. | Live Dashboard: [View Here](#)

**Financial Performance Analysis — Nike & McDonald's | Excel, Power BI** (Fall 2024)

- Conducted ratio, trend, and benchmarking analysis including liquidity, profitability, efficiency to evaluate corporate financial health.
- Built dashboards to visualize revenue growth, ROA, cash conversion cycle, and competitive positioning.
- Highlighted McDonald's 37% YoY net income growth through insights on digital, expansion, and ESG.

### CERTIFICATIONS & COURSEWORK

**Certifications:** Graduate Diploma in Advanced Computing and Software Development

**Coursework:** Business Analytics, Enterprise Database Management, Statistical Analysis, Web Development, ERP & Blockchain, Information Systems Security, Financial Reporting
