

Karl Emmanuel M.

United States • 651-707-7832 • mbouo.karl@gmail.com • [LinkedIn](#) • [GitHub](#)

IT Professional skilled in Python, R, SQL, and machine learning. Improved marketing prediction accuracy by 25% and enhanced data accessibility at Demeter Logistics. Bilingual in English and French, driving data-informed innovation and decision-making.

SKILLS

- Python, R, SQL, C++
- Machine Learning, Predictive Models, Deep Learning
- Mathematics, Statistics, Algorithms
- Talend, Snowflake, Hadoop, Spark
- AWS, Azure, Redshift
- Tableau, Power BI

PROFESSIONAL EXPERIENCES

Data Specialist Quality

Remote

Meta

September 2024 - September 2025

- Annotated and labeled large datasets with 98%+ accuracy, contributing to the performance of production-level ML models.
- Conducted QA audits on 1,000+ data samples weekly, ensuring consistency with labeling standards and reducing model error rates.
- Developed and applied verbal communication skills to facilitate IT project meetings, ensuring clear understanding and alignment among team members.
- Performed statistical analysis and feature engineering on large datasets, to extract insights and enhance model performance.

Data Scientist/Engineer

Houston, TX (Remote)

Société Générale

July 2023 - July 2024

- Built and deployed Machine Learning algorithms, and deep learning models (SVM, GBM, Random Forest), increasing forecasting accuracy by 25%.
- Streamlined ETL pipelines using Talend and Snowflake, reducing data integration time by 30% and improving reporting speed.
- Led statistical testing and model validation, improving model robustness and reducing error rates by 15%.
- Conducted EDA on multi-source datasets to identify key features and optimize model performance.
- Designed and implemented data visualization solutions to enhance business intelligence and decision-making processes.

Data Scientist

Louisville, KY (Remote)

Demeter Logistics

May 2022 - March 2023

- Improved marketing campaign prediction accuracy by 25% using ML models (e.g., Logistic Regression, Random Forest), directly increasing lead conversion.
- Utilized written and verbal communication skills to effectively collaborate with cross-functional teams and stakeholders.
- Conducted A/B testing to identify areas of improvement in IT systems and processes, resulting in increased efficiency and productivity.
- Utilized Git for version control and collaboration, ensuring seamless integration and efficient code management.

EDUCATION

UNIVERSITY OF EVANSVILLE

Bachelor of Science: Statistics & Data Science

August 2018 – May 2022

- Double major: Applied Mathematics
- NCAA D1 Student-Athlete

CERTIFICATION

[IBM Data Science Professional Certificate - Coursera](#)

[Associate Data Scientist – DataCamp](#)
