

Marlene Cosme

New York, NY, US | mcosme94@gmail.com | +1 646 853 7201

Professional Summary

Research Coordinator with over 10 years of extensive expertise in healthcare research, data analysis, and clinical trial coordination. Proven track record in managing complex research projects, ensuring regulatory compliance, and collaborating with multidisciplinary teams. Skilled in data collection, database management, and international research coordination. Adept at developing protocols, training staff, and ensuring adherence to ethical and regulatory standards. Committed to advancing medical research through innovative solutions and cross-cultural collaboration.

Key Skills

- **Research Coordination:** Expertise in managing multi-site research projects, developing protocols, and ensuring compliance with IRB and NIH guidelines.
 - **Data Management:** Proficient in REDCap, SPSS, Microsoft Excel, and Google Sheets for data collection, analysis, and reporting.
 - **Regulatory Compliance:** Strong knowledge of HIPAA, IRB, and Good Clinical Practice (GCP) standards.
 - **International Research:** Experience in coordinating with international teams and managing cross-cultural research projects.
 - **Project Management:** Skilled in developing work plans, tracking progress, and preparing detailed reports for Principal Investigators.
 - **Training & Supervision:** Proven ability to train and supervise research staff, ensuring adherence to study protocols and regulatory requirements.
 - **Communication:** Excellent interpersonal and written communication skills, with experience in drafting scientific documents, abstracts, and presentations.
-

Employment History

Research Coordinator

NYU Langone Health - NYU Comprehensive Epilepsy Center

Apr 2022 - Present | New York, NY

- Managed multiple epilepsy studies, liaising between medical staff, investigators, and international collaborators to ensure seamless project execution.

- Collaborated with Principal Investigators to develop and update study protocols, including data collection tools and case report forms (CRFs).
- Utilized REDCap for data collection, entry, and quality control, ensuring accurate and secure storage of research data.
- Ensured adherence to IRB-approved procedures and HIPAA regulations, safeguarding participant confidentiality and maintaining ethical standards.
- Trained and supervised research staff on study protocols, data collection methods, and regulatory compliance, improving data accuracy and study efficiency.
- Prepared detailed reports on participant recruitment, study progress, and data analysis for Principal Investigators, contributing to groundbreaking epilepsy research.

Assistant Research Scientist

New York University - Silver School of Social Work

Mar 2018 - Jan 2019 | New York, NY

- Conducted comprehensive data analysis using SPSS, contributing to evidence-based decision-making and research outcomes.
- Implemented efficient screening and consent processes, maintaining high retention rates and ensuring ethical research practices.
- Streamlined data collection and participant scheduling using REDCap, improving study efficiency and data accuracy.
- Adhered to IRB-approved procedures and HIPAA regulations, ensuring participant confidentiality and ethical research standards.

Medical Dispensary Inventory Manager

Verilife / PharmaCann

Jan 2021 - Mar 2022 | Bronx, NY

- Developed and implemented inventory management systems, improving operational efficiency and supply chain accuracy.
- Trained staff on compliance with state policies and operational standards, ensuring adherence to regulatory requirements.
- Leveraged advanced data analysis techniques using Microsoft Excel and Google Sheets to drive informed decision-making and strategic planning.

Additional Experience

Inventory Specialist/Pharmacy Technician

CVS Pharmacy

Dec 2014 - Jan 2019 | Bronx, NY

- Optimized inventory management processes, reducing medication waste and ensuring compliance with HIPAA and OSHA regulations.
- Streamlined prescription processing and insurance claim resolution, improving customer satisfaction in a high-volume pharmacy environment.

Medical Patient Care Representative

Verilife / PharmaCann

Jan 2019 - Dec 2020 | Bronx, NY

- Provided compassionate care to medical cannabis patients, ensuring compliance with Compassionate Care Act guidelines.
 - Streamlined electronic filing processes, improving data accuracy and operational efficiency.
-
