

Professional Summary

Accomplished SDET with 11 years of experience architecting robust automation frameworks from scratch using C# and Selenium in fast-paced Agile environments. Expert in driving software quality by integrating automated testing into CI/CD pipelines and pioneering the use of AI-augmented tools to accelerate development cycles. Proven ability to deliver high-quality, efficient, and scalable software solutions.

Technical Skills

- **Test Automation:** Playwright, TestComplete, Selenium WebDriver, xUnit,
- **Languages & Scripting:** Java, TypeScript, C# Scripting, PowerShell, JavaScript, VB Scripting
- **CI/CD & DevOps:** Azure DevOps, Jenkins, Docker, Git, Jira
- **AI, Cloud & Web:** GitHub Copilot, Cursor AI, Azure, RESTful APIs, ASP.NET
- **Databases:** MS SQL Server, MySQL, Oracle
- **Methodologies:** Agile, Scrum, TDD, BDD, Test Strategy & Planning

Professional Experience

Contour Software (Pvt.) Limited | Software Development Engineer in Test | *April 2020 – July 2025*

- Architected a scalable test automation framework from scratch using C# and Selenium, achieving **100% automation of core regression scenarios** and **reducing manual testing effort by 70%**.
- Integrated the automation suite into Azure DevOps CI/CD pipelines, enabling continuous testing for weekly releases of mission-critical systems.
- Pioneered AI-augmented testing using GitHub Copilot and Cursor AI to accelerate script generation and modernize legacy suites, **reducing development cycles by 30%** and **boosting stability by 40%**.
- Automated complex validation for data-intensive operational pipelines, including real-time data synchronization and AI-driven predictive scenarios.

NetSol Technologies | Principal Software Quality Assurance Engineer | *July 2015 – April 2020*

- Led the design of a new C#-based test automation framework for comprehensive testing of complex financial software modules in an Agile environment.
- Developed and executed automated API tests for RESTful services, validating data integrity and ensuring seamless integration between components.
- Authored and optimized complex SQL stored procedures for test data generation and back-end validation, ensuring high accuracy in data-centric testing.

Early Career Experience | Web Developer | *August 2013 – June 2015*

- Gained foundational experience as a full-stack Web Developer at KBM Media Solutions and Goldfish Technologies, building e-commerce platforms and client websites using PHP, HTML/CSS, and database integration

Education

Bachelor of Science in Computer Science | IUB -Pakistan | 2009 – 2013
