SUMMARY

Salesforce Developer with over 7 years of experience in Apex, LWC, and OmniStudio, achieving 30% branch deployment in initial U.S. rollout and enhancing customer satisfaction by 25% through a self-service Experience Cloud. Skilled in integrating tools like MuleSoft and Amazon Connect, reducing handling time by 25%, and adept in cloud technologies, CI/CD, and REST/SOAP web services.

WORK EXPERIENCE

Republic Finance - Lead Salesforce Developer

Jan 2024 - Present

- Led a Salesforce team, driving the development of **consumer loan booking and servicing systems**, ensuring compliance with **legal and regulatory standards** (GLBA, NAIC, GDPR) and incorporating **custom objects and workflows** for streamlined processes.
- Spearheaded the **GO LIVE phase**, successfully achieving a 30% branch deployment in Kentucky during the first U.S. rollout of Salesforce implementation, utilizing **Visualforce** and **REST-based web services** for enhanced functionality.
- Integrated critical tools, including **MuleSoft**, **Snowflake**, **DocuSign**, and **ABS**, enhancing **API integrations** and **data transformation** processes with **SOQL** queries.
- Led the **Menu Selling project** for **voluntary insurance products**, enhancing financial service offerings with customizable options, resulting in increased customer engagement and revenue growth through **project leadership**.
- Served as **SME** for the Book Loan Wrapper initiative, aligning product vision with business goals and ensuring seamless implementation and stakeholder satisfaction.

KPMG International Ltd. - Senior Salesforce and Omnistudio Developer

Aug 2022 - Dec 2023

- Enhanced **customer satisfaction** by 25% through the development of a **self-service Experience Cloud site**, empowering users with increased autonomy and **mentorship** for junior developers.
- Implemented **Omni-Channel & Skill-Based Routing**, improving **first-call resolution (FCR)** by 30% and ensuring efficient assignment of high-priority cases to specialized agents.
- Integrated **Amazon Connect with Service Cloud**, cutting AHT by 25% and enhancing agent productivity through **scrum** practices.
- Developed **Knowledge Base & Einstein Article Recommendations**, increasing self-service adoption by 45% and reducing inbound case volume, leveraging **Lightning Web Components**.
- Designed **CI/CD pipelines** with feature/release branches, **sandboxes** for testing, and code reviews to maintain Salesforce best practices and rigorous quality standards, contributing to the **Center of Excellence**.

Oracle America - Software Developer

Aug 2021 - Aug 2022

- Migrated legacy **Java applications to AWS Cloud** using **EC2**, **SQS**, **S3**, **Lambda**, and **DynamoDB**, leveraging **Docker containerization** to reduce **operational costs by 40%** and improve scalability, aligning with **platform standards**.
- Enhanced scalability and flexibility by leveraging **AWS services**, optimizing cloud infrastructure for better load handling and quicker service delivery.
- Automated monitoring with **AWS CloudWatch**, reducing system downtime by 30% and boosting operational efficiency.
- Optimized **CI/CD pipeline**, accelerating development cycles by 25% and cutting deployment times, ensuring **technical aspects** were addressed efficiently.

LoGoJeCh Technologies - Salesforce CPQ Developer

Jul 2016 - Dec 2020

- Designed **advanced pricing rules**, **discount schedules**, and **guided selling processes**, cutting time-to-quote by 60% and boosting cross-selling revenue by 25%, utilizing **agile methodologies**.
- Developed seamless integrations between **Salesforce CPQ**, **NetSuite ERP**, and billing systems, ensuring accurate invoicing and real-time data flow for over 10,000+ quotes annually, aligning with **Salesforce platform** standards.
- Enhanced the quoting process by designing custom approval workflows, resulting in a 40% reduction in approval time and improving sales cycle speed through **team development**.

SKILLS

Salesforce Technologies	: Apex (Scheduler, Triggers, Classes), SOQL, SOSL, LWC, VF Pages, Aura, GearSet, Copado
Vlocity & OmniStudio	: Flex Cards, OmniScript, DataMappers, Integration Procedures
Programming Languages	: C/C++, Java, Python, JavaScript, Go, Kotlin, Ruby, Bash, PHP
Web Technologies	: React.js, React Native, Next, Node.js, REST API, SOAP, WSDL BULK, Spring Boot, GraphQL
Cloud Technologies	: AWS, Azure DevOps, GitHub
Relevant Skills	: Workflows, Visualforce, Salesforce Platform, Agile, Custom Objects

EDUCATION

University of Texas, Dallas, USA - Master, Computer Science

IIT Bhubaneswar, India - Bachelor, Mech Engineering
