

SAI SRI MYLAVARAPU

Fort Lauderdale, FL | +1 (786) 651-2461 | saisricareer@gmail.com | LinkedIn

SUMMARY

Data professional with 3 years of experience collecting, cleaning, validating, and analyzing data from multiple sources to support business decision-making. Strong SQL skills used to write, optimize, and maintain queries for data extraction and analysis, paired with dashboard development in Power BI and Tableau and advanced Excel. Experienced building and automating reporting processes, performing data quality checks to ensure accuracy and consistency, documenting datasets and analytical processes, and presenting findings to technical and non-technical stakeholders.

TECHNICAL SKILLS

- **SQL & Databases:** SQL (complex joins, subqueries, aggregations, query optimization, indexing), PostgreSQL, Oracle, MySQL, Snowflake, Databricks SQL, Google BigQuery, Data Extraction and Analysis
- **Data Visualization & Reporting:** Power BI (DAX, data modeling), Tableau, Looker Studio, IBM Cognos, Interactive Dashboards, KPI Reports, Report Development and Maintenance
- **Excel & Data Preparation:** Advanced Microsoft Excel (Pivot Tables, VLOOKUP/XLOOKUP, Advanced Formulas, Power Query), Data Cleaning, Data Transformation, Data Validation Techniques
- **Python & Analytics:** Python (Pandas, NumPy, scikit-learn), SAS, Statistical Analysis, Forecasting, Predictive Analytics, Trend and Variance Analysis, Cohort Analysis
- **ETL, Cloud & Process:** ETL Processes and Data Warehousing Concepts, Apache Airflow, Alteryx, Multi-Source Data Integration, Cloud Data Platforms (Snowflake, Databricks, Google Cloud/BigQuery), Reporting Automation, Documentation of Datasets and Processes

PROFESSIONAL EXPERIENCE

Morgan Stanley

Data Analyst

USA

Mar 2026 – Present

- Wrote and optimized SQL queries against Snowflake and Oracle to extract and analyze 4.8M+ records from 5 source systems, identifying trends and exceptions that saved stakeholder teams 8 hours per week.
- Developed and maintained Power BI dashboards and Alteryx reporting workflows covering 2,100+ records, supporting reporting automation and removing 18 hours of manual effort per month.
- Performed data quality checks across 6 reporting feeds using SAS and Oracle, resolving 650+ discrepancies to ensure data accuracy and consistency.
- Collaborated with business stakeholders to understand reporting requirements, and built forecasting models in Python and Databricks SQL supporting planning across 4 business lines.

Adani Group

Data Analyst

India

May 2021 – Dec 2023

- Built interactive KPI dashboards in Power BI (DAX, data modeling) and Tableau tracking 15 business metrics, cutting reporting turnaround from 4 days to 2 days per cycle.
- Collected, cleaned, and integrated data from 6 source systems processing 5.2M monthly records through SQL and Python ETL pipelines, eliminating 96 hours of manual effort per quarter.
- Optimized SQL query performance in PostgreSQL (joins, indexing) across 10 tables, improving execution of 12 recurring reports and scaling retrieval to ~1.5M records per run.
- Established data validation checks across 8 datasets, identifying 1,200 inconsistencies per quarter and strengthening accuracy of downstream reporting.
- Analyzed operational data in Excel (pivot tables, lookups, Power Query) across 10 business units, detecting anomalies and correcting 18 recurring reporting errors.
- Documented datasets, definitions, and reporting processes across 20 standardized tables, and presented findings to stakeholders across 5 business functions.

PROJECTS

- **Customer Retention Analytics Platform:** Analyzed 140K+ customer and subscription records using Python, SQL, and cohort analysis to identify churn patterns; built automated reporting in Google BigQuery and Looker Studio across 6 metric categories, saving 9 hours monthly.
- **Procurement Spend Optimization Analysis:** Analyzed 310K+ purchase records using MySQL, Excel Power Query, and statistical analysis to identify pricing variances across 8 supplier categories and track 15 business metrics.

EDUCATION

Florida Atlantic University — Master of Computer and Information Science

Jan 2024 – Dec 2025
