EDUCATION

Ferris State University

Bachelor of Science in Computer Information Systems

Graduated: Summer 2025

GPA: 3.5

Muskegon Community College

Associate of Science in Website Development Entrepreneurship

Graduated: Spring 2022

WORK EXPERIENCE

Mark N Tucker LLC

Abandoned Property Coordinator

Spring 2017 - Present

Reference: Mark Tucker - (231) 747-4383

- Fulfilled construction orders as assigned by the city of Muskegon within given deadlines.
- Successfully executed and delivered assigned projects within specified deadlines, ensuring compliance with project plans and quality standards.
- Developed and implemented a systematic approach to organizing materials, tools, and equipment, facilitating quick and easy access for team members.

Ferris State University

Web Developer Internship

Summer 2025

- Led the complete overhaul of the ISYS 110 programming course, redesigning the 16-week schedule and creating new labs on IoT and advanced Python topics.
- Implemented new teaching methods, such as collaborative learning and reverse engineering, to improve student success and understanding of course material.
- Managed the course redesign project from conception to completion, culminating in the organization and delivery of all materials on SharePoint for the course instructor.

PERSONAL PROJECTS

ESU Honors Data Management System

Senior Capstone for ISYS 489

Spring 2025

- Developed a full-stack data management system for the Ferris State University Honors Program using the MEAN stack (MySQL, Express.js, Angular, Node.js) to centralize student records and streamline administrative operations.
- Engineered core application features, including a dynamic dashboard for data visualization, streamlined tools for data import and editing, and secure user authentication using Bcrypt and JSON Web Tokens (JWT).
- Collaborated with a four-member agile team, participating in weekly sprints and meetings to manage the project lifecycle from initial design and development to final testing and deployment.

COMMERCIAL PROJECTS

CornerstoneFMC.net

Website for Cornerstone Free Methodist Church, Holton, MI

Spring 2021 – Spring 2024

- Leveraged WordPress to design and create a visually appealing and user-friendly website that dynamically adjusts to different screen sizes and devices.
- Successfully integrated Stripe payment system to facilitate secure online donations, ensuring a seamless and trustworthy donation process.
- Actively engaged with key church stakeholders and leaders through email and voice calls to gather feedback, resulting in ongoing website enhancements and user satisfaction.
