Chicago, IL | +1 (203) 584-4940 | rakeshtav99@gmail.com | [linkedin.com/in/rakeshtav99/](https://www.linkedin.com/in/rakeshtav99/)

SUMMARY

Data Analyst with 5+ years of experience working with healthcare and financial datasets to support reporting, operational analytics, and data-driven decision-making. Strong hands-on experience using SQL, Python, R, Power BI, Tableau, and cloud data platforms including Snowflake, AWS, and Azure to clean, transform, and analyze large datasets. Known for building reliable dashboards, improving data quality, and partnering with business teams to translate data into clear and actionable insights in Agile environments.

SKILLS

Programming & Analysis: SQL (Advanced Joins, CTEs, Window Functions, Query Optimization), Python (Pandas, NumPy, Scikit-learn), Statistical Analysis, Predictive Modeling, Feature Engineering

Business Intelligence & Visualization: Power BI (DAX, Data Modeling), Tableau, KPI Dashboards, Data Storytelling, Ad-hoc Reporting, Business Intelligence

Data Engineering & Warehousing: ETL Pipelines, Data Transformation, Data Validation, Data Governance, Dimensional Modeling (Star Schema), Data Warehousing

Databases & Cloud: Amazon Redshift, PostgreSQL, MySQL, AWS S3, AWS Glue, AWS Lambda, Azure (Data Factory), Databricks (PySpark)

Tools & Methods: Excel (Power Query, Pivot Tables, XLOOKUP), Git, Agile/Scrum, Stakeholder Management, Jira, Confluence

WORK EXPERIENCE

Highmark Health

July 2023 – Present

Data Analyst

Camp Hill, PA (Remote)

- Performed large-scale healthcare claims analytics across 15M+ medical and pharmacy records using advanced SQL to identify cost drivers, utilization patterns, and high-risk populations.
- Designed dimensional data models (star schema) in Amazon Redshift supporting enterprise reporting and data warehousing initiatives.
- Developed Power BI dashboards tracking medical loss ratio (MLR), denial rates, reimbursement trends, and risk metrics for business stakeholders.
- Built automated ETL pipelines using AWS S3, Glue (PySpark), and Lambda for structured claims ingestion and transformation workflows.
- Implemented predictive risk modeling using Python (logistic regression, feature engineering, model evaluation using AUC-ROC).
- Conducted cross-system data validation across eligibility, provider, and claims datasets improving reporting accuracy and regulatory compliance readiness.
- Partnered with actuarial, compliance, and clinical stakeholders to support value-based care analytics and CMS reporting.

Tata Consultancy Services

March 2021 – August 2022

Data Analyst (Financial Analytics)

Mumbai, India

- Analyzed 20M+ financial transactions across credit card and retail banking systems using SQL for fraud analytics and risk monitoring.
- Built Power BI and Tableau dashboards tracking fraud rate, delinquency trends, chargeback ratio, and portfolio exposure metrics.
- Performed statistical analysis and behavioral trend modeling using Python (Pandas, NumPy) and R improving fraud alert precision.
- Automated SQL-based reporting pipelines supporting regulatory reporting and internal governance.
- Conducted financial data aggregation and risk segmentation across loan portfolios to evaluate default probability trends.
- Optimized SQL query performance using indexing and execution tuning improving dashboard refresh performance.

PetaBytz Technologies

October 2019 – February 2021

Associate Software Engineer - Data & Application Support

Hyderabad, India

- Developed complex SQL queries (joins, aggregations, subqueries) to identify settlement mismatches and reporting variances, reducing reconciliation errors by 18%.
- Conducted structured data cleansing and normalization to improve consistency across downstream financial reporting systems.
- Supported data migration initiatives by validating schema mappings and ensuring data accuracy during legacy system modernization efforts.
- Created Excel-based validation and audit reports (Pivot Tables, Power Query, VLOOKUP) to support internal audit and compliance reviews.

EDUCATION

Master of Science in Computer Technology

Eastern Illinois University, Charleston, IL

CERTIFICATION

Google Data Analytics Professional Certification – Google

Microsoft Certified: Power BI Data Analyst Associate (PL-300)
