

SUMMARY

Software Engineer with 2+ years of industry experience and a B.S. in Computer Science from the University of Washington. Experienced in Java and Spring Boot backend development, microservices, and Agile environments. Currently building a personal Spring Boot application while preparing for a returnship or entry-level software engineering role.

EDUCATION

B.S. in Computer Science, University of Washington, Seattle, WA — June 2021

Award: Emerging Researchers (2018)

TECHNICAL SKILLS

Languages: Java, Python, SQL | **Frameworks:** Spring Boot, Spring Data JPA

Web: REST APIs, HTML, CSS, JavaScript, JSON

Tools: Git, Postman, Kibana | **Databases:** MySQL, SQLite

Environments: IntelliJ IDEA, Linux, macOS, Windows

CERTIFICATIONS

[Introduction to Data Engineering\(IBM\)](#), [Fundamentals of Java Programming](#), [Java FullStack Developer Specialization](#), Python for Data Science, AI & Development(Ongoing), [Cloud Native. Microservices. Containers. DevOps and Agile in IBM Java Developer](#), [Spring Framework for Java Development](#), Generative AI: Introduction and Applications (ongoing)

PERSONAL PROJECT

Lemar Kebete – Educational Web Application — July 2025 - Present

- Developing a Spring Boot application to support interactive Amharic language learning for toddlers and parents.
 - Implementing backend endpoints, service-layer logic, and data persistence using Spring Data JPA.
 - Integrating backend services with a lightweight Thymeleaf frontend using MVC architecture.
-

PROFESSIONAL EXPERIENCE

Associate Software Engineer, T-Mobile — Bellevue, WA | Sep 2021 – Sep 2023

- Supported migration from monolithic systems to microservices using Java and Spring Boot.
- Built automation scripts and dashboards for repository monitoring in Agile teams.

Software Engineering Intern, T-Mobile — Bellevue, WA | Jun 2021 – Sep 2021

- Implemented backend features for an eSIM activation workflow and refactored legacy code.
-

RESEARCH EXPERIENCE

Research Intern, Fred Hutchinson Cancer Research Center — Analyzed viral genome data for phylogenetic research.
