PROFILE SUMMARY

Recent Graduate in Computer Engineering seeking a career opportunity in a reputed company to develop my skills and add value to the organization.

Proficient Computer Engineer motivated and enthusiastic by new challenging projects. Specialized in developing, testing, improving and evaluating practical and time-saving software programs. Skilled in operating, overseeing, and maintaining hardware/equipment design and troubleshooting. Adept at identifying issues with existing software and creating innovative software programs.

Possess extensive education in software design, network security and application development tools such as C#, C/C++, Windows OS, HTML, JavaScript, Python, Wireshark, AutoCAD, SQL, and Microsoft Office Suite. Quickly learn and master new technologies; works both independently and in a team to drive product success and process efficiency. An exceptional professional who works very well in a fast-paced environment with excellent interpersonal skills. Fluent in English and Spanish.

TECHNICAL PROFICIENCIES

Java, C#, C/C++, HTML, JavaScript, React JS, TCP/IP, Python, Wireshark, AutoCAD, SQL, Microsoft Office, Windows OS, Software Design, Data Structures, Visual Studio, Github, Khali Linux.

CORE COMPETENCIES

- | | | |
|---------------------------------|---------------------------------------|--|
| ❖ Web & Mobile Technologies. | ❖ Project Management. | ❖ Technical Specification Analysis. |
| ❖ Social Networking. | ❖ Creative thinking & Innovative. | ❖ Customer Relationship/Support. |
| ❖ Programming. | ❖ Flexibility & Adaptability. | ❖ Exceptional Interpersonal Skills. |
| ❖ Training & Coaching. | ❖ Multi Tasking Abilities. | ❖ Written and Verbal Communication Skills. |
| ❖ Critical Thinking skills. | ❖ Team work & Leadership. | |
| ❖ Detail-Oriented. | ❖ Software Architecture Technologies. | |
| ❖ Strong Organizational Skills. | | |

HIGHLIGHT

- ❖ Possesses good problem solving ability and analytical skill to solve the problems efficiently.
- ❖ Solid understanding of Software designs, data structures and AutoCAD and various computer engineering concepts.
- ❖ Demonstrate methodical, detail oriented and thorough approach to project work while adhering to the compressed timeline.
- ❖ Accustomed to working in project-based environments, multifaceted experience in software testing & software development.
- ❖ Consistently recognized for excellent problem solving, analytical skills by programmers, project managers, and supervisors.
- ❖ Responsible and committed to achieving the goal of the organization.

ACADEMIC PROJECTS

Mango Hacks

Summer 2017

- ❖ AR Popping Balloon, it is an augmented reality application available that let the user pop imaginary balloons using the real world as background in the game. In this project we used C# and I was in charge of the design of the balloons, I created the balloon class and methods needed for the functionality of the application.

CTD Drone

Fall 2017

- ❖ An integrated Hardware to a Drone with sensors that read conductivity, temperature and depth, when it is in contact with water and send the reader through the Wi-Fi Module to the web server. In the project, we used C++ and MATLAB. I was responsible of making sure that MATLAB received all the needed data, set up the Wi-Fi Module and connected the sensors to the Arduino.

PROFESSIONAL EXPERIENCE

Math Tutor

2017 - Present

- ❖ Directed students with relevant information about academic and personal support services at the college.
- ❖ Empower students to develop their study skills to help improve their academic performance.
- ❖ Facilitate numerous math courses as a class assistant by providing additional guidance to students during class.
- ❖ Specialized as an individual tutor by simplifying math concepts while coaching students to think critically to solve problems.
- ❖ Ensure that hardware and software was installed and properly functioning on all computers in the Math lab.

EDUCATION

Florida International University,

Bachelor of Science in Computer Engineering

Fall 2017
