EXPERIENCE

Crystal Facility Solutions

Houston, TX // Salesforce Developer // 04/2025 – present

- **Leading the implementation of Salesforce Sales, Service, and Experience Clouds** to modernize business operations and partner collaboration across cleaning, transportation, and maintenance divisions.
- **Designing and developing the Partner Experience site**, combining backend Apex logic and frontend LWC customization to streamline partner onboarding, project tracking, and quoting.
- **Building scalable backend automation** using Apex classes, triggers, and Flow to manage service requests, lead assignments, and case routing efficiently.
- **Integrating Salesforce with external systems** to synchronize customer, scheduling, and financial data, improving visibility and reducing manual processes.
- **Collaborating with business stakeholders** to translate operational workflows into Salesforce solutions, ensuring a unified platform that enhances service delivery and partner engagement.

Sunnova Energy International

Houston, TX // Salesforce Developer II // 03/2023 – 03/2025

- **Developed and maintained** custom Salesforce applications using **Apex, Visualforce, Aura, and Lightning Web Components (LWC)** to streamline business processes and enhance user experiences.
- **Designed and tested APIs** using **Postman**, enabling secure communication with third-party apps and improving system flexibility and integration capabilities.
- **Built scalable solutions** with **custom settings, custom metadata, and platform events**, enhancing system configurability and responsiveness.
- **Integrated** Salesforce with external systems via **REST APIs**, facilitating seamless data exchange and improving system performance and scalability.
- **Managed deployments** using **Copado** for Salesforce and **GitHub** for the experience site, ensuring a reliable and streamlined deployment process.
- **Collaborated** with **MuleSoft developers** to synchronize Salesforce with external systems, increasing data accuracy and operational efficiency.
- **Delivered scalable solutions** across **Service Cloud, Sales Cloud, and Experience Cloud** through both configuration and custom development to meet diverse business needs.
- **Mentored new developers** by enhancing their understanding of the Salesforce platform and **PC2**, enabling them to contribute effectively to development efforts.

Cayuse Holdings

Pendleton, OR // Salesforce Developer // 06/2022 – 02/2023

- **Optimized Service Cloud operations** by implementing **automated case routing** and **AI chatbots**, significantly **reducing response times** and improving **customer service ratings**.
- **Created** robust, reusable **Lightning Web Components (LWC)** to streamline user interface development and improve overall platform performance.
- **Conducted** extensive **testing and troubleshooting** of **Apex triggers, classes, and batch jobs** to maintain system stability, improve performance, and ensure compliance with business requirements.
- **Developed** comprehensive Salesforce components, including **Visualforce Pages, Custom Controllers, Custom Objects, Reports, Dashboards, Analytic Snapshots** to support business requirements.

Frontier Schools, Inc

Kansas City, MO // Salesforce Admin & Developer // 08/2020 – 06/2022

- **Developed and managed** custom Salesforce components, including **Custom Objects, Fields, Formulas, Validation Rules, Page Layouts, Controllers, Reports, Workflows, and Approval Processes**, extending functionality across the platform.
 - **Performed data operations** using **Data Loader** for **bulk insert, update, and export** of Salesforce data from CSV files, ensuring efficient data management.
 - **Optimized data queries** with **SOQL** and **SOSL**, preprocessing records and generating Sets to avoid hitting Governor Limits and ensuring application performance.
 - **Followed Agile and Scrum methodologies** for efficient project management, ensuring timely delivery of custom app implementations.
-
