☎ +1 (940) 977-4844 | ✉ HarshiniReddyJakkidi@my.unt.edu | 🔗 LinkedIn | 📍 Denton, TX

Summary

Health Informatics graduate student (4.0 GPA) with hands-on experience in clinical data management, real-world healthcare analytics, and predictive modeling. Skilled in Python, SQL, and Tableau with a foundation in observational research, data validation, and GCP-compliant clinical documentation. Certified Professional Coder (CPC-A) with applied experience in patient segmentation and health risk classification. Seeking to contribute to real-world evidence research and interactive data tool development.

Education

University of North Texas

M.S. in Health Informatics | GPA: 4.0 / 4.0

Denton, TX

Aug 2024 – Present

- Maintained a perfect 4.0 GPA across the first and second graduate semesters.
- Relevant Coursework: Clinical Data Management, Health Information Systems, Data Privacy & Ethics, Data Visualization, Machine Learning

Bojjam Narasimhulu Pharmacy College for Women, JNTUH

B.Pharm | GPA: 7.9 / 10

India

2020 – 2024

Technical Skills

Programming & Analytics	Python (Pandas, NumPy, Scikit-learn, TensorFlow, Matplotlib, Plotly), SQL / MySQL, Tableau, Machine Learning, Deep Learning, Data Visualization
Healthcare Informatics	Clinical Data Management, EHR Concepts, ICD-10-CM, CPT Coding, HL7 / FHIR (Learning), Mirth Connect (Learning), Healthcare Data Compliance, Clinical Documentation
Tools & Platforms	Jupyter Notebook, Tableau Cloud, MySQL Workbench, Microsoft Excel, Microsoft Office Suite
Research & Quality	Data Validation, Data Integrity Checks, GLP, GCP, SOP Compliance, Analytical Reporting
Soft Skills	Attention to Detail, Team Collaboration, Communication, Time Management

Professional Experience

Clinosol Research Pvt. Ltd.

Clinical Research Trainee

India

2023 – 2024

- Assisted with clinical research documentation, database updates, and verification of structured clinical data to ensure regulatory compliance and accuracy.
- Maintained data integrity across clinical research records and supported trial workflow management activities.
- Collaborated with cross-functional research teams while following ICH-GCP clinical documentation standards.

MSN Laboratories Pvt. Ltd.

R&D Laboratory Intern

India

2023

- Conducted HPLC and wet analysis with accurate experimental data recording and structured dataset maintenance.
- Generated analytical reports and supported quality assurance processes following SOP and GLP standards.
- Assisted in pharmaceutical formulation testing and research documentation activities.

Projects

Deep Learning Model for Health Risk Prediction

Python, TensorFlow, Neural Networks

Spring 2026

- Developed and optimized a deep learning model to predict healthcare risk classification using patient health datasets with 1,058 observations and 7 predictive features.
- Performed feature scaling, train-test splitting, neural network optimization, and architecture tuning using hidden layer and node experimentation.
- Evaluated multiple neural network architectures; achieved highest test accuracy of **70.75%** using a 3-layer deep learning model.
- Applied ReLU and Sigmoid activation functions, Adam optimizer, and binary cross-entropy loss for healthcare classification tasks.

Asthma Patient Segmentation using K-Medoids Clustering

Spring 2026

Python, Machine Learning, Healthcare Analytics

- Performed clustering analysis on asthma patient healthcare datasets using K-Medoids clustering with Gower distance metrics.
- Applied silhouette coefficient analysis to identify optimal patient segmentation and determine cluster quality.
- Analyzed healthcare expenditure, demographic, and utilization patterns to identify meaningful patient population groups.
- Identified total medical expenditure as the most influential feature contributing to cluster differentiation.

Film Data Fusion & Visualization Dashboard

Fall 2025

Tableau, Data Cleaning, Visualization

- Integrated IMDb and Box Office Mojo datasets using normalized movie titles and release years for multi-source analysis.
- Built interactive Tableau dashboards including scatter plots, dual-axis charts, and lollipop visualizations to analyze movie ratings and box office revenue trends.
- Applied calculated fields, joins, filters, and customized tooltips to improve dashboard usability and analytical storytelling.

Certifications

- **Certified Professional Coder – Apprentice (CPC-A)** | AAPC, 2024
Certified in ICD-10-CM, CPT coding, healthcare documentation, and medical terminology.
- **Introduction to Clinical Data** | Stanford University – Coursera, 2025
Learned clinical data collection, validation, interpretation, and ethical healthcare data handling practices.
- **Python Basics for Data Analysis** | IBM – Coursera, 2025
Applied Python and Pandas for data cleaning, manipulation, and analytical tasks.
- **MySQL for Data Analysis** | Coursera, 2026
Developed SQL querying and relational database analysis skills for structured data extraction and reporting.
