

SKILLS

- Data Analysis & Reporting (Excel, Access, SQL, Python)
- Contract Review
- Process Optimization & Workflow Redesign
- Data Visualization
- Power BI
- Safety and Compliance Monitoring
- Cross-Functional Collaboration

EXPERIENCE

Inventory Associate

Feb 2024 - Current

Walmart, Inc.

- Built 12 Excel automation tools to streamline Inventory and Receiving workflows, improving efficiency by 20–50% weekly and reducing labor costs.
- Conducted trend analysis of Staple Stock shipments to generate a dynamic reassessment model for staple stock status.
- Designed a 3D warehouse layout in SketchUp, optimizing space usage by 3.07% and saving \$10K+ in labor and material costs.
- Rebuilt the Returned Assets Program Disposition Tool (Excel), reducing file size by 85%, improving speed and usability.
- Investigated and resolved inventory discrepancies, ensuring accuracy during store remodel projects.
- Perform weekly inventory audits to maintain compliance and operational accuracy.

Engineered Labor Systems Coordinator

Aug 2018 – Nov 2023

Giant Eagle, Inc.

- Oversaw engineered labor standards for seven unionized warehouse facilities; audited and corrected anomalies, resolving IT issues as needed.
- Extracted, cleaned, and analyzed workforce and warehouse data using Excel & Access to generate productivity, safety, and incentive reports.
- Delegated tasks and ensured on-time completion of all daily/weekly reporting and compliance processes.
- Partnered with directors and managers to optimize workflows, reduce losses, and evaluate new-hire training effectiveness.
- Ensured timely issuance of productivity and safety discipline; audited records for 1,500+ employees to maintain labor contract compliance.
- Conducted targeted audits for contract violations leading to termination.
- Reduced department overhead by 44% through process redesign and automation.

EDUCATION

Coursework toward Bachelor of Science (B.S.) – Physics

California University of PA

Certification - Data Analytics

Coursera - HE76Y6FJQA69
