Richmond, CA 94803 | (510) 439-8169 | justinnthai727@gmail.com | <https://linkedin.com/in/justin-thai-b72504321> | <https://github.com/jnthai7>

EDUCATION

University of California Davis

Graduated June 2024

B.S. Computer Science

- **Relevant Coursework:** Computer Vision, Operating Systems, Information Interfaces, Agent-Based Modeling, Data Structures, Human Computer Interaction

WORK EXPERIENCE

English Language Instructor (Part-Time)

June 2021 - May 2022

T4E (Teachers 4 Excellence) (Remote)

- Delivered 1:1 and small-group virtual sessions using **remote collaboration tools**, adapting content dynamically based on user feedback.
- Tracked performance metrics and progress data to continuously improve outcomes.
- Demonstrated strong communication skills working in a **remote, cross-cultural environment**.

PROJECTS

Full Stack Social Media App @ [Github](#) | Typescript, React, Next.js, PostgreSQL

- Developed a full-stack application using **React, Next.js, and TypeScript**, supporting authentication, user profiles, posts, and follower relationships.
- Implemented server-side API routes and database queries using **Prisma ORM and PostgreSQL** to support CRUD functionality.
- Built secure authentication and authorization flows using **Clerk API** and deployed a production-ready application.

Personal Portfolio Website @ [Live Site](#) | React, HTML, CSS, Javascript

- Designed and developed a **responsive personal portfolio website** using **React** and **Javascript** to showcase software projects and technical skills.
- Implemented **client-side routing, animations, and transitions** using **Framer Motion** to enhance user experience.
- Applied **Tailwind CSS** and **responsive design principles** to ensure consistent performance across desktop and mobile devices.
- Optimized layout structure and asset loading for improve performance and usability.

Data Visualization @ [Github](#) | D3.js, HTML, Javascript

- Led a **3-member team** to develop an interactive data visualization analyzing social media usage and mental health across **500+ users**.
- Built interactive visualizations, including a **parallel coordinates plot**, using **D3.js**.
- Designed a survey interface allowing users to submit and visualize their data within the dataset.

Image Stitching @ [Github](#) | Python

- Implemented an **image stitching pipeline** in **Python** to generate panoramic images from overlapping photographs.
- Applied **feature detection and matching techniques**, including **SIFT and Harris Corner Detection**, to identify reliable keypoints.
- Applied **RANSAC algorithm** on **200+ featured matches** to estimate homography and accurately align images.
- Performed **image transformation and blending** to produce seamless panoramas, emphasizing algorithmic correctness and visual quality.

TECHNICAL SKILLS

Languages: Java, Python, C++, Javascript, Typescript, Html, CSS, SQL, PostgreSQL

Frontend: D3.js, React.js, Tailwind CSS, Next.js, Framer Motion

Backend: Node.js, PostgreSQL, Prisma, Supabase, MongoDB

Tools and platforms: Git, Github, Linux (Ubuntu) Figma, Visual Studio Code
