EDUCATION

Master of Science in Information Technology

Arizona State University, Tempe, AZ

May 2024

4.0 GPA

Bachelor of Engineering in Computer Science and Engineering

MVSR Engineering College, Hyderabad, TS

Jul 2021

8.08 CGPA

TECHNICAL SKILLS

Programming: Python, SQL, Java, JavaScript, HTML, CSS

Frameworks & Databases: Spring Boot, OracleSQL, MySQL, RDBMS, MongoDB, Couchbase, PL/SQL, Visual Studio

Development Tools/ Cloud: Tableau, PowerBI, Snowflake, Informatica, Microsoft Excel, Jira, Git, Jupyter notebook, RESTful API's, AWS, Azure

Other: Data Analysis, Data Mining, Data Visualization, Data Warehouse, Machine Learning

PROFESSIONAL EXPERIENCE

Indrasol, San Ramon, CA: Data Analyst Intern (Remote)

Sep 2024 - present

- Used preprocessing and cleaning technologies like Excel and SQL to reduce errors by 20%.
- Utilizing Power BI visualizations and conducted exploratory data analysis (EDA) to detect trends and patterns.
- Created dashboards to help stakeholders make better decisions by providing them with crucial insights.
- Developed detailed reports detailing study findings and recommendations, resulting in a 15% increase in project efficiency.

mBolden Consulting, Tempe, AZ: Business Data Analyst Intern

June 2024 - Sep 2024

- Gathered the business requirements and identified the project scope and its objective.
- Conducted a complete data analysis using python which results in 20% improvement of the outcomes. Developed and maintained interactive dashboards in PowerBI to give clear idea on the data.
- Presented key findings to project partners that influenced the strategic decisions and reduced the reporting time by 25% by data extraction and analysis.

Arizona State University, Tempe, AZ: Graduate Teaching Assistant

Aug 2023 - May 2024

- Guided students through crucial concepts like ORM, ERD, EERD, UML, and DIKW, emphasizing their importance in data analysis modeling.
- Collaborated with the Professor to enhance course materials, assignments, and exams, incorporating principles of data governance and quality assurance, resulting in a 20% improvement in final exam scores.

Accenture Solutions Private Limited, Hyderabad, TS: Application Development Associate

Dec 2021 - Jul 2022

- Analyzed and improved customer feature development projects, showcasing data handling and manipulation expertise to guarantee appropriate quality control.
- Demonstrated data mining and modeling abilities by using Java and Spring framework to create data-driven solutions and optimize backend processes for 40% decrease in response time and 25% boost in system efficiency.
- Supervised cross-functional teams during the projects, incorporated statistical modeling and predictive analytics concepts to improve project results and efficiency.

PROJECTS

PowerBI Dashboard on Data Professionals Dataset

Created a dashboard to understand the data professionals working ratio.

- Collected dataset of data professionals and transformed the data using the Power Query. Performed data cleaning in Power Query Editor and have built the visualizations.
- Created an interactive dashboard that gives a clear idea of salaries, skills, happiness in their jobs etc of the data professionals in their respective jobs.

Tableau Dashboard on Life Expectancy Data

Created a dashboard for users to understand the trends in health issues.

- Drawn different visualizations using Life Expectancy dataset to address queries, demonstrating proficiency with data interpretations in Tableau.
- Identified plots of different kinds that were used to emphasize the successful communication of analytical findings in dashboards that were both informative and simple for users to understand.
