

Kaci Esson

Phone: 602-525-6433 **Email:** kaci99@cox.net

Master of Science in Cybersecurity and Information Assurance with knowledge in a variety of network security components. A fast learner with the ability to grasp new concepts, technologies, and threats. Ambitious, dedicated, and energetic self-starter with outstanding technical, communication, and organization skills.

Education and Certifications

U.S. Secret Security Clearance – *Active July 2024*

December 2022 – November 2023

M.S. – Cybersecurity and Information Assurance *Western Governors University – 4.0 GPA*

August 2017 – May 2021

B.S. – Criminology and Criminal Justice *Northern Arizona University – 3.81 GPA*

B.S. – Psychology; Emphasis in Neuroscience *Northern Arizona University – 3.81 GPA*

Minors in Biology and Forensic Science / Graduation Honors: Cum Laude

Certifications:

CompTIA Cybersecurity Analyst (CySA+) – *July 2023*

CompTIA Penetration Tester (PenTest+) – *October 2023*

Areas of Expertise

- | | | |
|--------------------------------|--------------------|---|
| • COBIT, NIST CSF, ISO 27001 | • Cyber Compliance | • OSs: MacOS, Windows, Linux |
| • DCSA eMASS ATOs | • Network Design | • Data Management and Analysis |
| • IBM SPSS Statistics Analysis | • Splunk | • Vulnerability Assessments |
| • Python and R | • System Auditing | • Logical Reasoning and Troubleshooting |

Projects

- Core Service Stack (CSS) Design and ROM Presentation to Executive Team
- IT Hardware Purchasing POAMs, BOEs, and BOMs
- Cybersecurity Management Plan – Strategic
- Secure Network Design Creation
- Penetration Test Report Analysis
- Cloud Security Plan and Presentation
- Security System Evaluation and Remediation Plan
- PCI-DSS Compliance and Security Strengthening Plan

Professional Experience

August 2023 – Present

Lead Cyber Security Project Manager – EGSE, Launch Vehicles Division *Northrop Grumman*

- Management of the Electrical Ground Support Equipment (EGSE) cybersecurity team – assigning daily tasks, tracking progress on projects and process improvement initiatives, and being a POC for all cyber related questions.

-
- Assist all programs in the LVD with EGSE cybersecurity needs, including the creation of network diagrams, selecting and purchasing necessary hardware and software for programs, and conducting component movement in and out of classified areas.
 - Create commonly used formal documentation regarding cyber design requirements, vendor procurement guidelines, Concepts of Operations (CONOPs), and more. Also create program specific documentation for customers and other stakeholders, including Plans of Actions and Milestones (POAMs), Rough Orders of Magnitude (ROMs), and Ports, Protocols, and Service Managements (PPSMs).
 - Aide in the submission of eMASS packages for DCSA ATOs. In depth knowledge of the DAAPM, JSIG, and NISPOM.
 - Assist the cybersecurity team with program equipment audits, vulnerability assessments, and risk management strategies.
 - Take part in incident response for classified data spills and classified equipment loss / corruption.

December 2022 – April 2023

General Manager *Acqua Di Maré*

- Helped start the business – from assisting with renovations, designing menus, and setting up all POS systems.
- Directed day-to-day operations and all back-end procedures.
- Handled payroll, scheduling, and vendor orders. Trained new employees on policies, procedures, and standards.

August 2021 – December 2022

Assistant General Manager / Bar Manager *Blacksheep Wine Merchant*

- Supervised employees during their shifts and handled any situations that arose with customers.
- Managed all cash that flowed through the restaurant such as vendor checks, tips to staff, etc., as well as all accompanying paperwork.
- Assisted on marketing strategies, including specialty events held in and out-of-house.
