WORK EXPERIENCE

Production Data Analyst

Verisys Corporation, South Jordan, UT | January 2021 – February 2023

- Researched and verified the credentials of healthcare professionals by assessing state medical board records and disciplinary actions.
- Analyzed and entered data into client-facing systems with a strong emphasis on accuracy and quality assurance.
- Delivered credentialing reports under tight deadlines with consistent attention to detail and compliance.
- Recommended workflow improvements to boost efficiency and accuracy within the data team.
- Maintained communication with team members and leadership to resolve discrepancies and clarify findings.

Therapeutic Support Staff

BEE Kids, Tooele, UT | March 2024 – July 2024

- Delivered one-on-one therapy to children with autism using Applied Behavior Analysis (ABA) under the supervision of a BCBA.
- Implemented individualized behavior plans to support communication, social, and daily living skills.
- Monitored client progress through consistent data collection and behavior documentation.
- Collaborated with families and clinical teams to refine treatment strategies and intervention goals
