|--------------------|---|
| 05/2023 to Current | Adobe Campaign Developer
Epsom Global – Princeton, NJ <ul style="list-style-type: none">• Client: Novo Nordisk.• Developing and executing marketing campaigns and customer journeys using Adobe Experience Cloud solutions.• Engineered targeted marketing campaigns, leveraging Adobe Campaign Classic, |
|--------------------|---|

increasing engagement metrics.

- Designed and optimized customer journeys in Adobe Journey Optimizer, aligning messaging with marketing objectives.
- Executed data validation and identity stitching tasks within Adobe Experience Platform to establish cohesive customer profiles.
- Utilized Adobe Workfront for project tracking, workflow management, and cross-team collaboration.
- Integrating marketing assets with Adobe Experience Manager, tagging assets, and ensuring seamless content delivery.
- Conducted quality assurance and ensured compliance with industry regulations for campaign assets and data handling.

10/2021 to 05/2023 **Website QA Specialist**

Epsom Global – Plainsboro, NJ

- Client: Novo Nordisk.
- Created test case scenarios on the SMS opt-in journey program for patients and Health Care providers (HCP), and reported errors to the development team.
- Worked on test case scenarios for five new website launches (multilingual) for new drugs.
- Worked on test cases for the data flow between multiple systems (AEM to AEP) using raw SQL during their integration, and provided documentation.
- Worked on customer data mapping with the development team and created the data dictionary for both HCP and patients' data warehouses.
- Worked on identifying data inconsistencies between AEP and the data warehouse, provided a detailed report, and raised appropriate tickets with the development team to fix the issues.
- Utilized Jira to update stories and create tasks. Later, I transitioned to using Adobe Workfront.
- Worked on GDPR requests to identify the said users, and report it to the prod team for processing.
- Worked on identity mapping for HCP and patient data.
- Worked with the Data team to stay compliant with HIPAA and GDPR (U.S. and Canada).
- Introduction to TOSCA. Formal training completed.

03/2015 to 03/2018 **GIS Analyst - Google Maps Consultant**
