EDUCATION

Oregon State University

Bachelor of Science in Computer Science

GPA: 3.9

Corvallis, OR

Expected December 2025

Indiana University Bloomington

Bachelor of Science in Biology

Bloomington, IN

May 2016

EXPERIENCE

TORQ Sports

Remote

Software Engineer Intern – Full Stack

January 2025 – Present

- Led full-stack development of camps, payments, coach profiles, admin dashboards, and a dynamic media page; updated PostgreSQL to support new data models
- Developed a video thumbnail system using byte-range requests to extract frames, integrated with AWS S3, CloudFront, and Firestore for user management

Oregon State University

Remote

Teaching Assistant – Databases

January 2025 – Present

- Guide students in SQL, phpMyAdmin, data modeling, and full-stack integration using React, Flask, and MySQL
- Support individual learning through office hours and lead group discussions to reinforce database concepts and project work

Veneer Chip Transport

Tacoma, WA

IT Intern

September – November 2023

- Maintained PCs and supported Help Desk operations; managed user accounts in Active Directory to ensure system reliability

NOTABLE PROJECTS

NicMaps – React | Next.js | MongoDB | Vercel

- Contributed to full-stack development of a nationwide product locator with Google Maps integration, store accounts, and ranked listings based on paid tiers and product filters

Varsity Fund – React | Node.js | Firebase

- Led frontend development of `varsity-fund.web.app`, building athlete profiles, payment flow, and Firebase-based deployment and routing
