

MAYA GEE

Suwanee, GA, 30518 | +1 (470) 328-1898 | mayaeegee@yahoo.com | [LinkedIn](#)

PROFESSIONAL SUMMARY

Software Engineer with experience in developing SaaS Conversational AI-powered products in the HR Tech industry. Recognized for effectively executing incident response actions and enhancing system reliability through proactive interventions. Adept at swiftly acquiring new technological competencies in fast-paced, agile settings. Eager to utilize proven expertise to drive forward-thinking solutions in innovative full stack projects.

PROFESSIONAL EXPERIENCE

Veritone

Apr 2022 - Sep 2023

Software Engineer - github.com/mgee9 | Laid off during company-wide layoffs

Remote

- Implemented and owned the transformation of a mission-critical backend TypeScript data pipeline using AWS Lambda and SQS, dramatically improving data processing, storage efficiency, and ensuring uninterrupted data flow to downstream systems.
- Led incident response efforts to mitigate the impact of data pipeline incidents by conducting initial investigations, facilitating triage discussions, collaborating with external stakeholders, and implementing necessary fixes.
- Collaborated in designing, developing, prototyping, and maintaining backend systems, enhancing system performance and reliability
- Developed and supported production applications by proactively identifying performance issues and bugs, and facilitating agile development and continuous delivery within the team.
- Accomplishments:
- Modularized, analyzed, debugged, and improved pre-existing codebases by aligning with Clean Code principles
- Wrote high-quality unit tests and documentation, increasing test coverage of systems from 10% to 95% and improved alerting, monitoring, and logging, significantly reducing risks and time to make changes.
- Implemented several core backend and frontend features of a microservice for an internal application utilizing Java and the Spring Boot Framework to implement RESTful APIs.

Insight Global

Feb 2022 - Mar 2022

System Engineer

Alpharetta, GA, USA

- Completed ServiceNow Fundamental Training Course and ServiceNow CMDB Training Course
- Problem-solved and collaborated with team members in developing and troubleshooting solutions
- Engaged in the SCRUM process
- Accomplishments:
- Migrated the create, get, delete, and update APIs from one inventory model to another using Java in ServiceNow

PROJECTS

Assembly: Endgame (Hangman) Game

Nov 2024 - May 2025

- A final capstone project I developed using React, JavaScript, HTML, CSS, and web development skills I gained from the Learn React Scrimba Course. Also took the Advanced React Scrimba Course afterwards.
- Learned best practices of setting up a new React project, JSX, building custom components, and styling.
- <https://github.com/mayaeegee/Assembly-Endgame>

Birthday Card Site

Sep 2024 - Nov 2024

- A final capstone project I developed using the HTML, CSS, and web development skills I practiced throughout the Learn HTML and CSS Scrimba Course.
- Learned how to deploy a static webpage.

EDUCATION

Georgia Institute of Technology

Jun 2017 - May 2021

Bachelor's, Computer Science

KEY SKILLS & TOOLS

- **Skills:** Agile Development, SCRUM, Clean Code, Collaboration, Communication, Continuous Delivery, Debugging, Documentation, End-to-end Testing, Incident Response, Microservice Architecture, Modularization, Object-Oriented Programming, Pair Programming, Problem Solving, Prototyping, RESTful APIs, Teamwork, Test Coverage, Troubleshooting, Unit Testing, Kanban, Software Development, Software Engineering
- **Languages:** Java, JavaScript, TypeScript, Postgresql, MySQL, SQL, neo4j, HTML/CSS, Python
- **Tools:** Visual Studio Code, IntelliJ IDEA, Postman, Datadog, DBeaver, Git, Git Version Control, JIRA, Confluence, AWS SQS, AWS Lambda, Amazon API Gateway, React.js, React Native, Expo, Spring Boot, Spring Framework, Spring Data jpa, Node.js, Yarn, npm, ServiceNow, HuggingFace, Firebase, Vite, Power BI
