

Megha Naik

Pittsburgh, PA | +1 (682)-344-3859 | meghatgs@gmail.com | [LinkedIn](#)

SUMMARY

Results-driven Software Engineer and Cloud DevOps Specialist with **8+ years of experience** in designing **scalable backend systems**, **automating infrastructure**, and driving **enterprise digital transformation**. Expertise in **full-stack development**, **cloud-native architectures**, and **CI/CD pipelines** using **AWS, Azure, and GCP**. Skilled in optimizing **data pipelines**, enhancing **system performance**, and implementing **secure, high-availability applications** using technologies like **Spring Boot, Docker, Kubernetes, and Databricks**. Experienced in leveraging data analytics tools such as **Python, SQL, Power BI, and Tableau** to generate actionable insights, improve business outcomes, and support data-driven decision-making. Strong leadership in **cross-functional team collaboration**, with a track record of delivering solutions that support **millions of users**.

EXPERIENCE

Tata Consultancy Services Ltd

India

IT Analyst

Sep 2018 - Jul 2022

- **Architected and deployed** a cloud-native microservices-based solution using **Spring Boot** and **AWS**, enabling modular scalability and reducing application response time by **40%**.
- **Developed and integrated RESTful APIs**, improving data access efficiency and enhancing the user experience for **5,000+ daily active users**.
- **Optimized relational database performance** with advanced **PostgreSQL** tuning (indexing, query refactoring), cutting query response times to **<200ms** and increasing data throughput by **60%**.
- **Automated infrastructure monitoring** and alerting via **AWS Lambda** and **CloudWatch**, decreasing mean time to resolution (**MTTR**) by **65%** and achieving **85% uptime**.
- **Streamlined CI/CD pipelines** using **Jenkins** and **GitHub Actions**, accelerating deployment frequency by **50%** while reducing post-release defects by **40%**.
- Automated and managed unit and integration testing using **JUnit** and **Jest**, enabling rapid, isolated **QA cycles across multiple application** modules and improving test reliability and coverage.
- Led **Agile Scrum** practices including sprint planning, daily stand-ups, and retrospectives while facilitating onboarding and technical workshops for new hires, resulting in a **35% reduction in project timelines** and a **40% decrease in ramp-up time** through standardized engineering best practices.

Tech Mahindra

India

Software Developer

Jan 2014 - Jul 2018

- **Engineered and maintained** high-availability, **multi-threaded Java** applications processing over **500k transactions/day**, ensuring **80% system uptime**.
- **Collaborated cross-functionally** with UI/UX and product teams to design backend services that improved customer engagement by **30%** and boosted satisfaction scores from **75% to 90%**.
- **Developed robust CI/CD pipelines** using **Docker** reducing build cycles from **45 to 15 minutes** while maintaining a **zero-defect deployment rate**.
- **Executed cloud migration** initiatives to **AWS EC2** and **S3**, improving application scalability and reducing infrastructure costs by **25%**.
- **Implemented secure development practices** adhering to **OWASP Top 10**, decreasing security vulnerabilities during staging by **70%** and hardening overall application security posture.
- **Followed Software Development Life Cycle (SDLC) activities** from requirements gathering and system design to development, testing, deployment, and maintenance ensuring alignment with business goals and timely delivery of high-quality solutions.

SKILLS

- **Languages:** Java, Python, JavaScript, TypeScript, Scala, C#
- **Frontend:** HTML5, CSS3, React.js, Angular, Vue.js, Next.js
- **Backend:** Spring Boot, Node.js, Express.js, Django, Flask, FastAPI
- **Databases:** PostgreSQL, MySQL, MongoDB, Firebase, Cassandra, DynamoDB
- **Cloud & DevOps:** AWS (EC2, Lambda, S3, RDS), Azure, Google Cloud Platform, Docker, Kubernetes, Terraform
- **CI/CD & Automation:** Jenkins, GitHub Actions, CircleCI, TravisCI
- **API & Microservices:** REST, GraphQL, gRPC, SOAP
- **Testing & Security:** JUnit, Jest, Mocha, Cypress, OWASP Standards, Penetration Testing
- **Collaboration Tools:** Git, GitHub, GitLab, Bitbucket, Jira, Confluence
- **Data Engineering & Analytics:** Pandas, NumPy, Hadoop, Spark, Databricks, Kafka, Splunk
- **Visualization Tools:** Tableau, Power BI

EDUCATION

- **Master of Science in Computer Science** May 2024
The University of Texas at Arlington USA
- **Bachelor of Engineering in Computer Engineering** Jul 2013
Pillai College of Information Technology India
