EDUCATION

Arizona State University

Aug. 2021 - Dec. 2025

Master of Science in Computer Science

GPA: 3.61/4.00

Bachelor of Science in Computer Science

GPA: 3.88/4.00

- **Coursework:** Software Engineering, Data Structures & Algorithms, Object Oriented Programming, Perception in Robotics, Data Mining, Artificial Intelligence, Data Processing at Scale, Robot Learning, Operating Systems

EXPERIENCE

Mobile App Developer Intern

Jun. 2025 - Aug. 2025

Stanford Health Care

Palo Alto, CA

- Delivered new features and bug fixes to the MyHealth mobile apps by completing **13 Jira tickets** for **Android (Java)** and **8 for iOS (Swift)**, leading to releases on the App Store & Play Store
- Enhanced core functionality and user experience by developing key features for **patient appointments, insurance, messaging, and 2FA authentication**
- Collaborated with **cross-functional teams** to translate product requirements and stakeholder feedback into new solutions, improving **patient outcomes** and **healthcare accessibility**

Full Stack Developer

May 2024 - Dec. 2024

Ira A. Fulton Schools of Engineering

Tempe, AZ

- Collaborated with an **Agile** team to build a [capstone showcase website](#) using **React** and **TypeScript**, featuring an informative home page, a responsive navigation menu, and a survey to collect project information
- Implemented **backend** and **GoDaddy** server connection using **Express** and **MySQL**, showcasing capstone projects from approximately **350 ASU** engineering students

Software Engineer Intern

Jun. 2024 - Aug. 2024

Trizetto Healthcare Products

Mesa, AZ

- Utilized **HTML**, **CSS**, **JavaScript**, and **Bootstrap** classes to improve features and enhance designs of final test builds for the Trizetto Healthcare Products web pages
- Resolved over **80%** of all critical accessibility issues, low contrast errors, and alerts with **HTML** and **CSS**, ensuring the website followed the Americans with Disabilities Act standards

Frontend Developer

Oct. 2023 - Feb. 2024

Readeezy

San Francisco, CA

- Upgraded the **Thought Cloud** feature for 12 books with **Sass** and **CSS** by letting readers add answers, allowing them to check their understanding, and improve their reading comprehension skills
- Optimized the visual layout, achieving **75% higher user approval** through better text sizing, reduced whitespace, and updated questions with larger fonts, containers, and icons

Web Developer

Jan. 2022 - May 2022

Bridge2Africa E-Learning Lab

Tempe, AZ

- **Increased user engagement by 50%** through the use of **HTML** and **CSS** for interactive features, such as progress trackers and educational lessons, which led to a **25% improvement** in completion rates
- Elevated the platform's visuals through **UI/UX** design updates, achieving **100% user satisfaction**

TECHNICAL SKILLS

Languages: Java, C, C++, C#, Python, HTML, CSS, Sass, JavaScript, TypeScript, SQL, R, MATLAB

Frameworks: Node.js, Express.js, React.js, Bootstrap, Tailwind, Django, Flask, MongoDB, PostgreSQL, MySQL, .NET

Tools: Windows, Linux, Unix, Bitbucket, Jupyter Notebook, Git, Docker, Figma, Jira, ROS, Agile, Scrum

PROJECTS

[ShopperHub](#) | *HTML, CSS, JavaScript, React*

- Created an e-commerce platform featuring interactive elements, clothing products, and seamless navigation

[MovieSphere](#) | *Node, Express, MongoDB*

- Built a movie discovery platform with efficient search functionality and dynamic poster displays for exploration

[NeuralSnake](#) | *Python, Pygame, PyTorch, Matplotlib*

- Trained a neural network reinforcement learning model to play Snake, analyzing performance vs average scores
