PROFESSIONAL SUMMARY

Experienced Operations Analyst with 12+ years of success in data analytics, contact center operations, workforce management (WFM), and performance optimization. Proven ability to reduce costs, improve KPIs, and deploy speech and text analytics platforms. Skilled in SQL, Tableau, Power BI, SAS, and workflow automation to drive executive reporting and CRM-focused initiatives. Adept in project coordination, workforce management, UAT, and SaaS deployments. Collaborative leader with a track record of aligning operations with business goals through data-informed decision-making.

PROFESSIONAL EXPERIENCE

Williams-Sonoma Inc.

Care Center Operations Analyst | | Data Analyst • July 2016 – April 2025 | | (Remote)

- Delivered an 8.7% reduction in operational costs by leveraging Medallia Speech Analytics and a variety of data driven performance insights (Fiscal Year 2023–2024).
- Implemented reporting automation via Medallia Analytics and Power BI with a focus on Customer Relationship Management, enhancing reporting efficiency and accuracy.
- Led a team of 4 analysts to execute Speech Analytics dashboards, KPI dashboards, root cause analyses, and executive reports, improving data-driven decision-making efficiency.
- Developed and automated dashboards highlighting call drivers, sentiment trends, and brand-specific behaviors, leading to improved strategic insights.
- Introduced tools to monitor remote team performance and reduce work avoidance, improving productivity and saving the company over \$130,000 annually in unnecessary payroll expenses.
- Partnered with Telecom & IT to enhance IVR call routing, reducing live agent volume by 14.3% and support costs (FY 2023-2024).
- Oversaw UAT for enterprise speech analytics rollout, aligning system functionality with business needs.
- Executed cross-departmental KPI assessments, driving an 18.8% improvement in customer response time (FY 2023-2024).
- Supported change management efforts through stakeholder alignment, adoption tracking, and operational coaching.

Credit One Bank

Workforce Analyst | | Risk Analytics • Apr 2013 – July 2016 | | (On-Site)

- Produced daily operational and performance reports and analytics for Collections, Customer Service, Fraud, Risk, and Treasury, enhancing operational insights and decision-making processes.
- Delivered ad hoc reporting tailored to evolving business needs, collaborating directly with department managers.
- Partnered with BI and Data Automation teams to build internal dashboards, improving data accuracy and accessibility.
- Managed agency delinquency account allocations, using metrics and forecasting to improve recovery while evaluating cost recovery.
- Validated nightly ETL pipelines and new data integrations, maintaining high standards of data integrity and reporting accuracy.
- Managed real time queue volumes to allocate available agent resources to accommodate inbound volume spikes as needed.
